Calcutta 1st May 1831.

Dear Sir,

We have now the pleasure to wait on you with ~~your~~ american Missionary Society Account Current, closed to the 30th Ultimo. with a balance in ~~your~~ its favor of Sicca Rupees Six Thousand five hundred & Eighty Eleven Annas & four pie (S.a R.s 6,580.. 11.. 4) — which we hope will be found correct; and if so, we beg you will favor us by filling up and returning the enclosed Note of Acknowledgment at your early convenience.

2d. On Funds placed with us for the Current Year, and not liable to be withdrawn without three months' previous notice, we have the pleasure to intimate that the appearance of the Money Market enables us to continue an Interest of Eight per Cent. Remittances made to us in the course of the year will have the same advantage.

3d. On sums held at command, we shall be happy to afford the best Interest the state of the market may from time to time admit of, & where Investment in the Government Loans is preferred, we are always ready to execute such orders on the most favorable terms.

4th. When sums are withdrawn to meet the ordinary occasions for family expenditure or directed to be remitted by us to Europe, such drafts or orders will not affect the rate of interest on funds placed under the terms of our 2d. Paragraph.

5th. We take this opportunity to announce that the interest & responsibility of Mr. Browne Roberts, in our Concern, ceased on the 30th April 1828.

We are,
Dear Sir

Boston,

Dear Sir

I was duly favored with your letter of the 15th of Nov.r advising a shipment of 3000 Dollars Sp.r Monies on account the Missions at Ceylon & Bombay, a moiety each, which I have received, & will dispose of as you direct — The Boxes containing Papers &c have also my care, they must lay over some months here, as during the S.W. monsoon the trade between Cal.a & Ceylon, & Bombay, is entirely suspended —

The grave stones for Mrs. Newells Grave shall be sent forthwith to the American Consul at Mauritius Luckily, a ship is now on the way for

for that place —

In sending Books, papers, & Pamphlets to the Missionaries at Ceylon & Bombay, pray bear in mind, they all pay a Duty on importation here of 20 per on a very high valuation — & the expenditure, on this account had been very great, & perhaps vastly more than equivalent to the object —

The Missionaries p Pagoda understood their Passage money to Calª was paid at Boston, their passage money to Bombay I have advanced, & will perhaps draw on you for. Rs 1200 —

I am my dear Sir
very sincerely Yours.

Dear Sir

Your two letters of the 12 June I have received — your letters for Bombay & Ceylon have been forwarded by Post — I thank you for promised attention to sending me the Boston Recorder —

I note there are 5000 Dollars onboard the Bengal, 3000 of them for Ceylon & 2000 for Bombay, & I have advised Mr Winslow, & Mr Hall, accordingly, have authorised them to draw for proceeds, the former is somewhat in my Debt —

The Box of Pamphlets shall be opened, as requested by you —

I have

I have now to advise having this day drawn on you for Six hundred Dollar ($600) at 30 d/s. favoring Messrs Samuel G Perkins & Co which I request you to honor; it is the equivalent for 1200 Rupees, the amount paid for the Passage of Mr & Mrs Frost, & Mrs Graves to Bombay in the Elizab of which I gave you notice in my letter of 23 april last –

As the Missions both at Ceylon & Bombay, are very short of funds, I have deem'd it for their convenience, the rather to draw this Bill, than repay myself out of the money you have now remitted me p Bengal

a

a vast many letters go to you by this opportunity, from both stations - but I have requested my friend Mr Peter Remsen of New york, to send them to Boston by a private conveyance, to save the expence of postage -

I am My dear Sir
very truly & sincerely, Yrs,

I beg you to present my compliments & thanks to Mr Anderson, for the letter he was so kind as to address to me -

My dear Sir

I am without any letters from you or for the Miſsionaries by the Mars or Two Brothers —

I hope you will approve of my money arrangements for the two Stations of Bombay & Ceylon —

Altho' in general, I do not approve of hoarding for such purposes as the cause you have in hand, but deem it our Duty to spend in the course of the year, all we collect in the year, & trust to Providence for future supplies — neverthelеſs, Prudence, is a virtue in such Concerns, as well as in everyday ones, & therefore

Perhaps

perhaps it would be wise, if you
were to apply the sums intended
for Ceylon & Bombay between the

be hereafter used as need ~~[illegible]~~
wisdom shall order -

Henry Hill Esquire,

Treasurer of the American Board of Commissioners for Foreign Missions

Boston,

Dear Sir,

Herewith you will receive Copies of my Account th the Board, from the time I have had charge of their affairs in India this date, exhibiting a balance in my favor of Rs. 7175. 5. 10.

I trust and hope you will find these accounts correct, pass them in my Conformity. — The Missionaries at Bombay and Ceylon have been furnished each with Copies of these Accounts. —

As I propose to keep the Accounts of the Society the future with Messrs. Palmer & Co. for reasons stated at length the Corresponding Secretary — I have thought proper to close this Ac: unt by drawing upon you for the Balance, in favor of Messrs. Peter nsen & Co. in my Bill of this date at 90 days sight for Dollars Three usand five hundred & Eighty seven, Seventy three Cents, being at the hange of 50 Cents for a Rupee — ($ 3587.73.) which Bill I trust will carefully protect. —

Upon an examination of the Accounts you will see have expended large sums for Postage and Duty and other charges packages sent out to the Missionaries — I believe I called the latter bject to your attention sometime ago, but beg again to recommend hat you abstain from sending such things as are not required by the issions, seeing they involve you in considerable expence —

I

I am

Dear Sir,

We have been favored with your letter of the 9th Decr., and have no doubt the Account Current therein alluded to duly reached you and has been found correct also that our bill upon Mr. Hy. Hill for £. 4,985.15.11 has been paid at maturity.—

We now do ourselves the pleasure of handing you past years Account Current with the Society closed by a balance of S.Rs. 38,710.13. for which we have again drawn upon Mr. Hill at the Exchange of the day viz 2/1 favoring our Agents in London for £4,032.7.6.— we hand you herewith the third of the bill (first & second being forwarded direct to London) which perhaps you will be kind enough to have accepted and domiciliated in London and then forward it to our friend Messrs. Cockerell Trail & Co.—

At

At your request we should not on this occa
have charged your Society the usual Commission upon
Advance, on their Account were it not that in chargin
est at the Current rate of 10 p Cent we are positive lose
such has been the imprecedented scarcity of Money in
market during the past year that interest has been as
even as 15 pCt. this pressure has been latterly going off
to avoid Indian charges upon your Account we wou
=gest that your Society adopt the measure of remitta
to this country half yearly or yearly as may be most co

Ship Israel — Dear Sir

The "Israel being lly equipped & prepared for sea, you will take charge and proceed in her to Madrass, in the East Indies

The Missionaries who take passage with you re destined for Ceylon, and you will endeavor on our outward passage to touch at Point Pedro on the thern extremity of that Island, & land them there, if ssible; but if by reason of the wind & weather, r from other causes you may deem it practicable o to do, you will proceed at once to Madrass & there and them with their baggage &c together with such portion f your Outward Cargo as may find a good market at that place.

We would by all means have the missionary passengers landed at Ceylon provided it will not be means of unneces detention to the ship; — We need ay but little respecting the conduct to be observed owards them, presuming, as a matter of course, that ou will study their comfort & convenience, & do every in your power to render their passage out as pleasant agreeable as possible.

There are eight or nine children & two or three adults (connected with the missionary board) who are now at Ceylon & desire to take passage for this Country we should be pleased to have you make arrangements o take them, provided they can be at Calcutta n season for the Ship — The price of passage will be wo hundred dollars each, they paying freight, at the rate of Twenty dollars per ton for all such articles of baggage &c as cannot be stow'd in their State rooms

Mem. Dr Ward has sent his Account, since ours was forwarded to Am., in which he has charged us Rs 25000 — having credited that amount to the Treasurer of the Board; and has also deducted a charge for Postage which was included in the sum credited by us to the Treasurer as paid by him to Mr. Symms — the amount for the Ceylon Mission being credited in the Accounts of that Mission with the Board. These items are therefore charged in this Supplemental Account, leaving a Balance of Rs 3,205-10-10 due the Mission.

My dear Sir

At a meeting of the Prudential Committee of the Board on the 10th of last month, a resolution was passed making me a grant of 700 Dollars, to enable me to make such arrangements for the support of myself & family as will relieve me from the necessity of drawing on the treasury of the Board subsequent to the 1st of May next. In order to carry out the plan which I submitted to the Committee, I shall need the money now. I would therefore ask you to do me the favor if convenient, to send me a draft, or order for that amount on Mr. Merwin.

And oblige
Respectfully yours

Madras, August 15, 1840.

Henry Hill, Esq., Boston;

My Dear Sir

I trust you have received my letter
the Rev. Dr. Anderson, dated in Jaffna, which contained a sketch of our
very interesting and prosperous passage, and of the manner in which
disposed of the business consigned to me. I then hoped to find t
lost box which I mentioned, (marked in the bill, "Rev. Wm Tracy, Madura, A
but have not been able to hear anything from it. Capt. Woodbury hurried
me so at Colombo that I had no opportunity regularly to receive the goods
from his ship. He delivered the number of parcels specified in the bi
and more, & I do not see how it could have been left on the B. Warrior.
After arriving at Jaffna I made inquiries, but he could find nothing o
As I mentioned I first missed the box at Paumben Channel where I
landed the boxes for Madura. It has been suggested that it migh
possible have been left in Boston by mistake — but I can hardly c
ceive of that. If so of course it is safe & will yet be forwarded.

I am happy to assure you to find myself at last engaged in my
business. Our establishment is at present very full of work. Have in pre
four books for the ~~Jaffna~~ Madras Sch. Book Soc., two monthly & one weekly publi
tions, beside much job work; in English. The Tamil & Teloogoo departments
also very full. Our founts of English type are abundant, but some of th
much worn, & rendered inefficient for "want of sorts." — I have been led
conclude that, as we must have a foundry to do anything in the way o
supplying ourselves with good & improved Tamil type, we may as well m
ufacture at the same time our English type. And so venture to ask
three founts of matrices, in addition to the moulds. The appended order is int
ed to include a complete, small type foundry, and whatever the Founders
should think necessary that I have omitted, I shall be much obliged if
will allow them to send. I am liable to forget many small things o
importance. — I find the knowledge which I obtained of type mak
bookbinding, etc., before leaving the States, turns to the best account
it is of the utmost importance that a man be well & practically acquaint
with any business in which he engages in this country.

My health has generally been good since arriving — at present ve
good. Mrs. H. enjoys better health than she did in New-England.

I will thank you to remember us very respectfully to Mrs. Hill; &
to Henry, when he returns. To Dr. Anderson, Mr. Greene, & father Chapm
I shall ever remember you all with tender feelings.

I am very Respectfully & Affectly
Yours, P. R. Hunt

My Dear Sir,

The Revd Mr Tracy has kindly offered to take charge of my two sons, Samuel and Ezekiel, and exert himself to place them in suitable families in America. My object in writing to you now is, to request that you will acknowledge such draughts as Mr Tracy may make upon you, for funds on their account. In addition to the 50 Spanish dollars hich you allow for our children on reaching Ameca, I will thank you to pay yearly to Mr racy or to his order, a sum, not exceeding fty rupees for each of them, and charge the ame to my account.

Any bills which Mr Tracy presents for the xpences of my two sons before their settlement, ou will also kindly be pleased to honor, as well for the conveyance of boxes &c &c, to my iends, and others.

My dear Sir.

The type foundery and other goods per "Varuna" from London arrived the last of June 1843, concerning which I wrote you by the July mail which was lost on the Memnon Aug.t 1st. The fact that I wrote by that mail did not occur to me till a few days ago when Bro. Winslow put me in mind of it. I must now make up for that miscarriage –

The letter expressed my very great satisfaction in the goods so far as I had examined them, and my thankfulness to you and to the Board in thus favouring us. — Having more minutely examined the articles I beg now just to drop a hint – that is – It is not desirable I think ever to send second hand articles to this country – especially if the charge be the same. The agents of the foundry sent 2. 2nd hand rods @ $25 the full price – and the lap apparatus is old though in apparent good order except the pivots which are nearly worn out, and it will be difficult to renew them here.

Still

Still this is of no particular importance. Only they should
for 2d hand goods. I repeat however, that I am very well pl
indeed with the supply as a whole - The Wooden press is
cheap, and a beautiful article - I have put it upon good

N.B. A Mistake In the Invoice a Lead Mou
$25 was mentioned - but this did not appear - The rest
came in a soldered box so that it could not have been lost.
course we paid the regular duty here @ 10 per Cent and 20
added to the invoice Cost, so that in purchasing another,
rather in sending one, for I doubt not you have paid for
already, I trust you will not forget to ask for a suitable d
tion - Note also that we must pay duty the 2d. time whe
it does come. The duty on $25 here is about 6 Rups.

In my letter I asked for the lead mould and
few other articles which I now repeat and also add an in
forwarded by last mail. I suppose all will come tog
and allow me to suggest the propriety of sending if possi
direct - Syman charges 2½ per Cent. for reshipping box

I wrote you last month regarding the type foundry and enclosed a duplicate indent for type, &c. Since then I have had occasion to use the finishing rods of which I spoke as being 2d hand. The rod for quads is not only 2d hand – it is _very old_, so old that I suppose it was entirely laid aside. The screw is so completely worn out that it will not hold at all – and we cannot renew it – The other letter rod is old, & the screw very much worn. I feel much grieved that the kind gentlemen at the foundry should have thought it proper to send such articles to _India_! Above all we should have as I said before articles sent in the best order. They charged the _full_ price for the two old rods, and the duty & expenses have been paid accordingly. I shall not dictate what ought to be done at this distance, but feel in duty bound to make known the matter

My dear Sir,

We have now made pretty fair trial of our foundry and find to our great satisfaction that we can make type. I have indulged a great deal of unbelief regarding myself and have been very cautious about ordering, for fear we should get out tools which I could not put to use. By grace I am now enabled to say that we are casting three founts of Tamil at once, one in Long Primer of 1800 to 2000 lbs for Madras and Jaffna. We have completed an English Long Primer fount of about 1000 lbs already. I am labouring hard for it, but in mercy my health as yet continues perfect. I make an immense use of Cold water outside and in to which by God's blessing I attribute my almost uninterrupted good health and Spirits.

Soon after I wrote Dr. Anderson regarding the difficulty of getting on without a founder or some one to assist me, I set upon the work myself & have so far succeeded very well. Just what Mr. Greene kindly suggested I had carried into effect when his letter

letter arrived. I have initiated a Scotch Pensioner who was trained a printer, and he renders me es-sential aid. The Natives cast pretty well.

As it will be very slow business to cast la founts of letter with a single mould I have thought it advisable to order duplicates of three✝ sizes an by this opportunity beg leave to hand you casts fro the three already here to enable the founder to ma Matches to them. Kindly hand the little parcel to Founder when you order the work. We shall also require two additional moulds of larger sizes.—

I hope the funds of the Board will enable you to answer this order as cheerfully and promptly as you have the preceding. There is an increasing demand for the means of publishing God's word and tracts in the different languages of South Ind and I consider my labors in connection with the foundry of the utmost importance, and I am happ to state that others are beginning to think the same.—

N.B. In case the founders allow a discount on the Moulds it would be better to enter them in Invo at the discount price (not mentioning discount to save duty here, which is terrible high.

Kindly order these articles packed with care in a tin soldered Case.

We have now made pretty fair trial of our foundry and find to our great satisfaction that we *can make type*. I have indulged a great deal of unbelief regarding myself and have been very cautious about ordering, for fear we should get out tools which I could not put to use. By grace I am now enabled to say that we are casting three founts of Tamil at once, one in Long Primer of 1800 to 2000 lbs, for Madras and Jaffna. We have completed an English Long Primer fount of about 1000 lbs already. I am laboring hard for it, but in mercy my health as yet continues perfect. I make an immense use of Cold Water outside and in to which by God's blessing I attribute my almost uninterrupted good health and spirits.—

Soon after I wrote Dr Anderson regarding the difficulty of getting on without a founder, or some one to assist me I set upon the work myself and have so far succeeded very well. Just what

Mr Greene kindly suggested I had carried into effe
when his letter arrived. I have initiated a Scotc
Pensioner, who was trained a printer, and he render
me eſsential aid. The Natives Cast pretty well. I th
it would be very well to have a founder.—

As it will be very slow busineſs to ca
large founts of letter with a single Mould I
have thought it advisable to order duplicates o
three sizes and by this opportunity beg leave to
hand you casts from the three already here t
enable the founder to make matches to them
Kindly hand the little parcel to the founder
when you order the work— We shall also req
two additional Moulds of larger sizes.

Kindly order these articles packed with care in a tin soldered Case.

I hope the funds of the Board will enable you to answer this order as cheerfully and promptly as you have the preceding. There is an increasing demand for the means of publishing God's word and Tracts in the different languages of South India, and I consider my labor in connection with the foundry of the utmost importance, and I am happy to state that others are begining to feel the same.

N.B. In case the Founders allow a discount on the Moulds it would be better to enter them in Invoice at the discount price (not mentioning discount) to save duty here, which is terrible high.
We paid 12 per cent on this type. Duty on English type would have been 3 per cent

23d Dec. The Cranes are just going a board I have added another L.C. mould as that size is most used and I cannot need anoth for fitting mattrass— With respect

My Dear Sir

Mr. Winslow has gone to Jaffna with his intended wife, Mrs. Dwight, and has left me in Care of some of his affairs.

I have just received your letters of 30 Nov. & 13 Dec. 1844. Your Credit for £1500 is very acceptable. Mr. W. will take pleasure in paying over the amt. mentioned to our excellent friend Mr. Green.

Pray accept our thanks for having forwarded our box to Conway.

We are somewhat lonely in Mr. Winslow's absence, but are getting on pretty comfortably I believe. Bro. Ward's health is not so good at present. Young Scudder is doing well – we love him. We needed such a spirit amongst us to cheer us up.

I must send you report of our Press soon. As I almost never write Mr. Anderson & Mr. Green may I send them through you my feeling of sincere attachment to them as well as to you. I love you all now as much as when you were so very kind to me in Boston. The Lord makes me very happy in my work.

My dear Sir

We have received your letter, and the enclosures of 30 December. Mr Winslow is yet in Jaffna. Was married yesterday I suppose, and will return in a week or two.

Mr Ward is in a very poor state of health & will proceed to Bangalore next week for a 3 months' change. We are otherwise very well.

We have heard of the loss or failure of the "Arabella" — sprung a leak & was sold at Mauritius — the cargo transhipped to Calcutta & Madras in 2 vessels. Word for the [illegible] has not yet arrived.

My Dear Sir
I beg to hand you per "Hannah Sprague" B/L of 14 packages Curiosities. Those mark'd B.D. Sinnard & E. Hunt I suppose you may be able to despatch per railway to Bath, N.Y. and if possible let them go freight not paid. Whatever you are obliged to pay on them kindly charge to our mission so that I may refund the money here.

The Capt. chooses to take his freight in Boston & I must trouble you to accommodate him.

Nos. 1–7 – seven boxes Coral mark'd Hopkins, Lascell, Tallah & Wells are from Mr. Herrington & he wishes the parties to pay freight. I have distributed the packages in sep. pages to enable you to charge the missions the amount that the brethren who have sent them may pay the same. I do not know how you dispose of such charges — but it is clear that the brethren ~~aught~~ or their friends ought to pay the expenses.

I have recd goods per "H. Sprague" and "Arabella." The latter was abandoned at Mauritius & the goods sent on by a French House to Madras. Goods in pretty good order

A Custom House officer asked me to get him some of those pails, pine or Cedar, and perhaps it may be well to accommodate him if Mr. Chap man wd kindly put up a box of 6 to a dozen of them. Yours very faithfully

My Dear Sir

I am happy to state we have received the goods per "Sarah" in excellent condition. The moulds & other tools were perfectly satisfactory. I may be allowed to say however that we had waited for them a long time. The Agent of the foundry has apologized for the delay & of course must be excused.

After what I have written (to Dr. A. May 9. 1846.) I feel a little backward in making any remarks upon matters connected with the Sarah. There are a few things I think you ought to know — and I shall be extremely short.

1. American sugar ~~ca~~ is contraband in Madras as well as Ceylon. I am now reshipping a sugar loaf sent by Mr. Spaulding to Mr. Apthorp.

2. Your soft Pine will not do for packing heavy goods without bands or cleats. One of the carriage boxes came to pieces while re-shipping. Goods are in great danger from the surf at Madras, every precaution should therefore be taken in packing. The poor McMillans lost many things, by writing

on board in the commencement of the passage. Mr. Gunn's box was ruined. Our models were in a plain pine box. Came perfectly safe, but had they been under the hatches, like others, to receive the rain & sea, they would have been utterly ruined. Such valuables should *never* be sent except in *tin*. Even *books* ought to be tinned up as they run the greatest risk of damaging. If they gather the least moisture they will spoil on arriving in this climate. It would delight you to see how the English put up goods. Almost every thing is in tin. But too much on this head.

3. In several boxes for Sarah were "bundles," "periodicals," &c. without contents or value. Could you not in all such cases, ~~tare~~ tear the wrapper sufficiently to judge of contents & value & enter the same in the invoices? If the value be given without the cash column, or at bottom, it w^d not interfere with your ~~[illegible]~~ regular footing. For the sake of a small bundle, perhaps worth 18pence, a large box of books must be opened & unpacked, possibly to the bottom! Or you might put *all* parcels, bundles or what not into *one*

box & then I could open them with less trouble. After all the things must be valued, which you are better able to do than I am.

You must pardon me if you think I make too much of these things.

I am shipping this day to your care per "North Bend," Sprague, 5 packages a per B/L in the ship, the freight on wh: to be paid by you in Boston.

I thank you for the attention you pay to my frequent requests, on behalf of others.

I enclose a note to Mr. Plante of the foundry which kindly read, seal, and forward. It is a clear case that they have done by us in regard to those [illegible] as they would not like to have us do by them.

Our little boy has been poorly of late but we hope he is getting round now. Dear Lonny Scudder has been extremely low a long time, but is slowly gaining now.

With sincerest regard Yours faithfully

My Dear Sir

I beg to hand you B/L for five packages Curiosities & Sugar per North Bend, Captain Sprague. As Mr. Hoisington wishes the freight paid in Boston I trust you will have the kindness to do so, & collect it from parties as usual, viz: Ten dollars. ($10)

As the sugar loaf may appear mysterious, I will explain, that it was sent per Malabar by Mrs. Spaulding to Mrs Apthorp. Being contraband in Ceylon, it was sent to me, as a present. Being also contraband here, I send it back to good Mrs. Spaulding, who will no doubt relish it as having come from Ceylon! As the sugar is fairly mine, perhaps she will consider it a present from me! By the way, should Mrs Spaulding have left, or any thing of the kind, of course you can dispose of the sugar in any way you please.

Joseph Symm, Esqr.

My Dear Sir,

I have the pleasure to acknowledge your favor of the 28th July. I am sorry to say your "explanation" with reference to the discrepancy in quality between the 142 Reams ℘ Boyne and the 60 Reams ℘ Buteshire proved unsatisfactory. It led me to make some inquiries, the result of which you will have in what follows. — The high prices charged by you for paper as well as some other articles, and the non appearance in your accounts of the benefit of "Drawback" on paper, are the points on which I have made inquiries, and upon which I shall make a few plain statements for your candid consideration. —

It is but a little while that I have conducted this branch of the correspondence with you so that I may not be acquainted with all that has transpired between us. I am aware however that Mr. Winslow, I think on more than one occasion, inquired how it was that your paper comes so much dearer than that obtained by others. I have also intimated as much and I must say as in the present instance I have not been fully satisfied with your reply. I have also disliked the appearance of your paper. One great fault has been want of whiteness. True I have said that (purely on the score of economy) for common books, tracts &c. an inferior quality of paper would answer, But though I have ordered Superfine, to this day, I am very sorry to say, we have not received one sheet of White paper! Neither is the texture good. Even the Superfine ℘ Boyne 20lbs, can only be called good fine paper, having a cloudy appearance when held up to the light. Good paper must show evenness of texture like fine Cloth.

As to the 142 Reams ℘ "Boyne" in my last to you I expressed satisfaction in regard to it, and indeed it does answer our purpose as to quality, but on further examination I see it does not correspond with my order, being loose and spongy, whereas

I.

I asked for a strong and durable texture, and was particular to mention: "I expect of course the cost will be correspondingly low." But instead of that it comes @ 10/5d and we were aſsured it was a "job lot" or it would not have been so cheap! This order is eked out with 60 Reams of far inferior quality (indeed I think I have not seen poorer in this market - it appears to me to have been designed rather for wrapping than printing paper) for which we are charged 10/4 - while by the same Ship a Madras Preſs received 18 lbs. demy of good fine quality and excellent color, (See Specimen enclosed 18 lbs) for Ten Shillings!! This appears worse to me in connection with the "Secret" revealed in your letter under notice. Your saying that it is "good common paper" proves nothing, as I do not know by what standard you judge. Whatever that standard may be, it remains a fair question, and one I am bound faithfully to ask; why is it that you charge for such paper /4 more than another agent in your own city does for that of far superior quality?—

You aſsure us that you deprive the Paper makers of nearly all their profits by your "hard preſsure". If this be intended as a pacificit I must say I do not like this grinding down the operatives. And in the second place I cannot discover what benefit we derive from such "preſsure". Do not think we shall "charge you with great sin because you do not perform impoſsibilities" I think you cannot but consider us reasonable customers.

As ~~the~~ the best mode of bringing to a fair test the price and quality of your paper, as compared with that sent to the Madras Preſs, aforesaid I enclose Specimens with prices marked on each, of Stock imported per "Buteshire" this year. The Specimens of your paper were also imported by the "Buteshire" except the Royal (which came in 1843) and the 14 lbs. demy.

of the Madras Bible Society's Paper; 20 lbs. demy @ 12/6 Your 20 lbs paper sent as "Superfine" is 14/. I may mention here that formerly you charged regularly 14/6. for 18 lbs. demy of inferior quality to your Specimens now enclosed. The color was very bad. This is hard to be understood bearing in mind, that, according to your letters, rags are higher than in former years.

One of the reasons given why you could not send paper as cheap as the Bible Society was that they purchase larger quantities at a time. I must confess this was hardly intelligible. You say if we will order 1000 or 1500 reams at once you will try & do something better for us. I do not know what the maximum wholesale rate may be, but should think it would apply to 500 or 700 reams, or even less. at any rate the shipment to the Bible Society from which I have taken the Specimen, consisted of just 500 reams. and that to the Madras Press of 900 reams of all sorts. I find it difficult to believe that it makes any great difference necessarily, I mean in price, wheather 500 or 1000 reams be sent.

I am informed by a book seller here, who has been in London, and learned the customs of its dealers, that great advantage can be taken of the market with *ready money*. He says there are three prices for paper. 1st. The Makers' — 2d. The Proprietors' — 3d. The "Commission Merchants'". That his Agent gives him every advantage in trade in Bills at 18 Mos. sight. Now as we pay you ready money, and 5 ℘. cent on all you pay out for us, it appears to me suitable that you should do the best you can by us without further profit.

The second matter is more mysterious than the first. I do not know how often Mr. Winslow has asked for information regarding "Drawback". He says you have acknowledged there is such a thing, and that in making up your accounts you take its benefit into consideration. This appears singular. The Ship, as I understand it, must *sail* before you can receive the Drawback, and yet in the ship you send us your accounts. Perhaps you have some way of knowing how much it will be. Still you must allow me to say that your mode of "taking into consideration", charging us 2/. & 2/6 ℘ ream more than others for inferior paper, is not altogether satisfactory.

The

The bookseller before referred to says there is a "very handsome "Drawback" on paper, and that the account is always distinctly entered in his Agent's Account. He mentioned an instance in an invoice before him of £20 on £113. He says it is sufficient to pay all the expences here and in London. Indeed he once offered to furnish us paper at London prices. Instead of this we are obliged to enter our stock at 20 & 25 ℘ Cent advance to pay the expences. This, added to the original high rates, makes it utterly impossible for us to compete with other presses. You must pardon me for mentioning that on hearing the way you transact business from us, he laughed and declared that you ought to allow us ten per cent for the benefit of doing our business. It is true you take care of our letters &c. Still I cannot forget that for all this you receive a remunerating commission; if not, you ought to have more.

I understand from a gentleman lately in London, who made particular inquiries, that the manufacturer e.g. of presses, allows 10 ℘ Cent off on the market price. It appears from an invoice now before me (obtained since I commenced this letter) that the agent who made it up was allowed on a small quantity of type 5 ℘ Cent off which is deducted in Account. And in another purchase of chases, roller moulds &c. a discount of 11 ℘ Cent is deducted. On Harrild's Galley Press @ £12.12.„ exactly such as you sent us, he also obtained and deducted in invoice 10 per Cent. In all these amounting to £10.7.6. Not thus with you. Never to my knowledge have you shown a penny's deduction, except 10 per Cent on the "Baptismal Services".

While the said invoice is with me allow me to quote a few prices and compare them with yours.

This morning I went to the Press and examined the above articles, I took along a dozen of your Calf Skins, as they came to hand and compared them with a dozen of the above as they came to hand, and found yours a full size smaller, beside having a bad color. I cannot but put down your Skins as 2d or 3d Sort. Your Colored Calf Skins are handsome, but not so large as the above. The Millboard is the same as yours – The Chases are better, i.e. have more grooves for bars. Binders Press the same. Glue is very superior, equally as good as yours, but cannot say it is better. The Quantity is the same as your supply viz. 2 Cwt.

With these facts before me I trust you will not feel disposed to blame me for writing what I have. My responsibility is by no means light, and I must act according to my convictions of duty, as an Agent, while I would fain avoid doing any thing to injure your feelings or your purse.

Trusting that you will be able to give me a satisfactory reply by return of mail –

My dear Mr Hill,

We have had a careful examination into the manner in which our Agency in London has been conducted and think as we trust you will on reading the foregoing that there must be a change. As I once suggested, you can I think easily find an Agent connected with some House in Boston or New York. Mr Robert of New York has a correspondent in London, who has forwarded us Articles. We can send to the Agent of the Chr. Knowledge Soc. for Paper and propose to give an Order by this Mail for some on which to commence printing the Dictionary — but we need an Agent for general purposes and perha Mr. Lynne would not be willing to forward letters and act as an Agent in other respects if he had not also the benefit of our orders for the Press. An Agent is needed not for this Mission only but for that at Jaffna & Madura. May I therefore request your kind attention to the subject? — Yours with much regard,

My Dear Sir

I beg to enclose copy of a letter to Mr. Symm. I need hardly say that I much regret the necessity of writing such a letter. I have taken no small pains to ascertain the truth of all the statements made. I enclose specimens of the same paper sent to Mr. Symm that you may be able to judge for yourself. What I call in the letter the "Madras Press" is that of the Society for Pro. Ch. Knowledge. The Agent who supplies that press with stores is named Geo. Cox. Perhaps you may think it desirable to make some inquiries in London in regard to the points touched upon in the letter. This would be for our mutual satisfaction.

We think it would perhaps be well to employ this Mr. Cox. The fact that the committee of that society have employ him is as good a guaranty of his character and ability as we need have.

Since I commenced this letter to Mr. Symm it has occurred to me, that, as a regular communication with Madras is now established, it may be best for us to get our supplies principally from America. This would save commission and exchange, and, taking all things together — the cheapness of your paper, low rate of freight, and insurance, as compared with England, — I am inclined to think, notwithstanding the high rate of duty here, we may be able to get our paper cheaper than we now do. The landing expenses here are rather high, and the duty amounts to 11 per cent. Say the whole cost @ about 11½ per cent. From to commence printing the Dictionary — but we need an Agent for general purposes and perha Mr. Lynne would not be willing to forward letters and act as an Agent in other respects if he had not also the benefit of our orders for the Press. An Agent is needed not for this Mission only but for that of Jaffna & Madura. May I therefore request your kind attention t the subject? Yours with much regard,

My Dear Sir

I beg to enclose copy of a letter to Mr. Symm. I need hardly say that I much regret the necessity of writing such a letter. I have taken no small pains to ascertain the truth of all the statements made. I enclose specimens of the same paper sent to Mr. Symm that you may be able to judge for yourself. What I call in the letter the "Madras Press" is that of the Society for Pro. Ch. Knowledge. The Agent who supplies that press with stores is named Geo. Cox. Perhaps you may think it desirable to make some inquiries in London in regard to the points touched upon in the letter. This would be for our mutual satisfaction.

We think it would perhaps be well to employ this Mr. Cox. The fact that the committee of that society ~~have~~ employ him is as good a guaranty of his character and ability as we need have.

Since I commenced this letter to Mr. Symm it has occurred to me, that, as a regular communication with Madras is now established, it may be best for us to get our supplies principally from America. This would save commission and exchange, and, taking all things together — the cheapness of your paper, low rate of freight, and insurance, as compared with England, — I am inclined to think, notwithstanding the high rate of duty here, we may be able to get our paper cheaper than we now do. The landing expenses here are rather high, and the duty amounts to 11 per cent. Say the whole cost @ about 11½ per cent. From this, and referring to the specimens enclosed, you can judge whether you c^d send us paper lower than the rates there mentioned. By the way, however, those rates should be put at least 20 per cent lower, for it is certain we can get better paper from London 20 per cent cheaper than Mr. Symen furnishes it. So you may take the specimens from the "Madras press" as your guides. But however it may turn out, I have just consulted Mr. Winslow, and we have concluded to make an order on Boston at once, & after that we can tell better what to do. Indeed I wonder we have not thought of it before this.

I will see that you have a copy of Mr. ~~Symen~~ Symen's reply, but I can hardly believe ~~there~~ he will be able to clear himself so as to make it advisable for us to employ him ~~again~~. He has sent us more than 3000 reams, at an expense of some £1800, on which I must judge he has profited at the rate of 20 per cent, ~~&~~ beyond his commission.

In regard to the paper ordered below, I will say we only want good firm ordinary paper. I we would lay stress on *firm*, as for school books it is very important. It should have a good degree of thickness. Perhaps it would be well to send a few reams of several sorts, with some distinguishing mark upon them, ~~there~~ with which I can communicate with you afterwards. — NB *Kindly never put any thing else in with the paper*. I mean in the same *boxes*.

One thing we very much want, and that is, a cheap board for binding books. No small part of the expense of books here is the binding. We have excellent leather, cheap enough, but our English "mill board" is very dear. We want a good deal for cards. We are just printing the new Sepon Cards lately got up in New York, and I hope they will be acceptable here. — When I was in Boston they used boards for common books made of oat straw. If they have got by this time a good article I think it would do us very well. You would do well to send us a lot of ~~all~~ various sorts, as an introduction to your market. My good old friend Mr. Chapman, whom I shall never forget, would delight I dare say, in picking up a good lot of things for us, and packing them in good order. I fear you will think I am taxing you too much of late with long letters.

Yours very sincerely

P R Hunt

Oct. 10. Since writing the foregoing I have cleared the goods by the "Goodwin." Allow me to say that an "abstract of invoice" is not sufficient, unless it states the cost of each class of goods separately: — Hardware^{20} — Piece^{20} goods (lace, drapes & what not) — Books^{6}, &c. Else the duty cannot be justly levied, as each has or may have a different percentage, viz: 20, 20, & 6. as mentioned in former communications.

It occurs to me that you ought to see Mr. Symons' "explanation" referred to in my letter to him, and so I copy it below.

Dear Sir

I was yesterday favored with your esteemed letter of 8 June containing a fresh indent of paper &c. It had not been in my hands many hours till I called on the paper makers and read them your observations on the 60 rms. per

Buteshire. I was well aware of the great difference in appearance Boyne, and I am not surprised at your observation, tho' I think you went a little too far in stating 2/6d as the difference. Now what shall I say in answer? My explanation is, if you had not got the 142 rms the whole shipment [per Buteshire] would have been the same as the 60, but the fact was, the 200 rms [order] not being ready in time for the Boyne, I made such a noise about it that they were glad to give me the 142 rms. which was a job lot they had picked up cheap, and was worth 1d per lb more than they charged me, say 1/8d per rm. and at the time the only difficulty they had about it, was, and they said so, that the next would not please, as they knew they could not supply a similar quality at the same money; and it is not therefore, that you have got a dear paper in the latter ~~place~~, case, but that you got one too cheap in the former. And if I at any time pick up a job for you, it must not be brought against me as a great sin, that I cannot always do impossibilities. Now you are in the secret."

Since making up the foregoing I have opened box No. 2 per "Goodwin" which contained a quantity of the very board I refer to, made of straw, and which I think will answer our purpose admirably. It may prove to be destructible by our voracious insects, but we can only try it.— The board should be of a size to cut to advantage for Demy books, as we mostly use that size paper. Perhaps however this is an unnecessary caution. In binding 20000 copies gospels an enormous quantity of binding stuff is required. We therefore want a cheap good article.

We want some good cloth for binding gospels & the like; something strong, good looking, that will take glue well. Some pains to furnish this article will place us & the cause of education in India under strong, and durable obligations. Please send us some

200 yards binders cloth, as above. (moderate cost.) Such as can be put on without being easily ~~at~~ ~~daubed~~ daubed with the natives dirty hands.

1 Do. Oaken buckets for stable & other hard use. Any durable wood, such as is used, is all I mean.

If you have no objection to executing the foregoing for the C.H. offices, I shall feel obliged if you will mention, in bottom of invoice, the proportion of expenses, freight &c. connected with the articles, that I may properly arrange the cost here with the Mission. The C.H. people are very civil to us & I wish to return their kindness but not in ~~one~~ a way ~~an~~ objectionably ~~way~~ to you.

P.S. I will thank you to mention in your next to Mr. Winslow the cost of an Arming Press (so called in England) i.e. a Press for embossing or lettering books, with dies. Mr. Goldsmith had one when I was there. Let it be complete with a set of plain embossing dies for 8vo 12° 18° & 32° Demy. If it should cost only about 50 dollars or so I think we had better have one. It would immensely improve the appearance of our books at little cost. An English Arming Press costs £25. A beautiful thing though.

My Dear Sir,

I will thank you to send to Bangor, Maine, for me, by Child and Co's Express the 2000 little books, which Mr. Merwin has probably sent to Boston. I received the 2000 you sent to Portland. If Mr. Merwin has not sent the 2000 just alluded to, I hope he will send them in time for you to send them to Bangor. I expect (D. V.) to be there on Sabbath after next or before. When you send me the books, will you please to see, that they are not packed with the backs up, as a weight on them marks them, and they are much disfigured. If they are put upon their sides, there can be no injury of this kind done. If Mr. Merwin has sent any copies of "An Appeal to Christian Mothers in behalf of the heathen" I will thank you to send me 10 copies. If I can pay some money into the hands of any person in Augusta or Bangor I wish to do so, as my money for my little books accumulates.

My Dear Sir,

I will thank you, to send immediately 500 of my little books to Brunswick, Maine to the care of Professor Packard, by Express. I do not know whether an Express goes on to Brunswick; but Jerome & Co. or Child & Co. perhaps would make an agreement with you to have them delivered without delay at Brunswick. If this cannot be done, of course I must go without the books — I will thank you to send by Child & Co's Express 1500 of the little books to Portland, if you cannot send any to Brunswick. If you can send 500 to Brunswick, then 1000 only need be sent to Portland — "The Harvest Perishing" came in the first bundles sent by you from Boston to Portland. I wrote to Mr Merwin to send me 25 copies of "Knocking at the door". These need not be sent to me now. I will thank you to pay the Express for the books sent to Brunswick: for if they should miss me, Professor Packard would have to pay for them.

With many thanks for your kind attention,

very sincerely

P. S. I received the packages directed to Bangor. If no books have been sent to you for me, please to send what you may find in a box below stairs, and what are in your room — But this I hope will be unnecessary.

My Dear Sir,

We are about to break up housekeeping and to go down to Ohio with three of our sons, to leave them with friends there. In order to fit out our sons (four in number, one having gone to Chancellor Walworth) we have been obliged to incur some considerable expence, and we shall be obliged to incur more to get them to their place of destination. If you will kindly make out my bill of expences for the year in something of the following order, I shall be obliged to you

Family Expences	$1200
Travelling Expences in behalf of the Board, and other travelling with children outfit &c.	$000

I do not know that this is a proper way to make it out. You will know best. All I wish is, that my travelling expences &c &c, should not be added to "family expences".

We leave God willing for Ohio on Wednesday. I feel very desirous, *sometimes*, to labor in the West in Spiritual things

Very dear Sir,

I enclose the first Annual Accounts of our Missions, which I hope will be found satisfactory. They are made out on a plan, which, though it must be considered only experimental; is as near as we can now judge, suitable. In some respects it more resembles that of the Bombay than the Jaffna Mission; — as it is adapted to circumstances more resembling the former than the latter. Madras is said to be the most expensive of the three Presidencies, on account of its very limited foreign trade, and the comparatively sterile soil of the surrounding country.

The Allowance at Bombay, of a missionary & wife, is Rs. 136 ꝑ. mensem or 1632 ꝑ. Ann. We have put it here at 133⅓ ꝑ. Men. or 1600 ꝑr. annum. This is no more than the allowance in Jaffna, reckoning the loss of exchange. It is the same, considering the Rupee worth 15 fs. in Jaffna — which may have been about the average value the last year; — that is 1/10½d or the Cash exchange here, much of the time, when Bills at 30 days are 2/. and 90 days 2/1d — At Madura, I believe, the Brethren take the nominal exchange and reckon the Rupee at 2/ — which gives them 125 ꝑ. Men.. The means of subsistence, however, except foreign articles, are much lower than here, and lower, I believe, generally than in Jaffna.

The allowance to children is put the same as at Bombay Rs 15 ꝑ. Men. The expense of their schooling here is considerable. For conveyance there is an allowance, as in that mission, also of Rs 20. ꝑ m. though this is now done away in Jaffna. At here seems to be altogether a necessary item. We should be glad if we could dispense with it, or meet the burden from the family allowance. The latter we now think impracticable, but shall be glad to find ourselves mistaken; the former we cannot do

and perform our proper Missionary work. Missio
under different circumstances, allowing them to co
mand their hours for missionary labours out, and t
perform their longer or shorter tours on foot, in the
cool of the day, may perhaps dispense with a co
nveyance; but we cannot, as we are obliged to g
or three miles & sometimes more, oftentimes
the very hottest part of the "twenty four hours", to pre
or to attend a Com. meeting, for preparing tract
or Scriptures, or to do some business for the Mission
The state of things here renders this indispensabl
and a proper regard for health makes not only
conveyance, but a covered conveyance of some k
necessary. The allowance of Rs. 20 – will abou
pay the expense of feeding and taking care of a hor
and keeping a gig or some kind of wheel carr
in repair; the first cost of each not included.
course the whole expense would be 8 or 10 Rupe
more. This we take upon ourselves. All the Mi
here have an allowance for conveyance, though
lowest salary the English Missy receive is abov
one third more than ours.

We have charged postage, the greater p
though not all being strictly public. Our situation
here, in reference to the other Missions, subjects
to expense of postage, which we could not we
bear.

As said before, however, we make the
arrangements for the present subject to the revi
of the Committee, and to be modified by experi

The funds have been received from
Jaffna to the amount of £300 – in Bills as credite
and the Balance is due here. It will stand cha
to the Account for the Current year.

As for Estimates for the future w
must leave them principally with the Pru. Com
for the present at least, only requesting that our
letters on the want of Scriptures & Tracts, to a
large amount, also the importance of extensiv
School ~~establishments~~ operations, and of procurin
suitable premises for residence, and the establish
of a suitable printing office be kindly considere

The amount of money needed will of course be in proportion to the number of Missionaries, and the extent of their operations. We think that about 2500 is needed for *Native Free Schools* at the two stations now occupied; and if Boarding Schools or an English High School be established a further suitable sum will be needed. We are anxious to commence these as soon as circumstances may allow.

As to the expense for *Bibles* & *Tracts*, there can be almost no limit, but the means of preparing & procuring them. Our letters already forwarded will sufficiently explain our views. The Brethren at Madura mention that they did not include in their estimates the sums needed for these, and wish *us* to add 12,000 or 15,000 Rupees for them.

I have not time to add except to say that in sending out any articles for the Tamil Mission to come to Madras it is exceedingly desirable that they be sent here *direct* instead of coming by way of Calcutta. If for Jaffna, ~~[illegible]~~, and an opportunity offers for Ceylon, of course that is better; but these opportunities must be much less frequent than those for this Presidency.

We are in great want of *paper*. The Bible Soc. and Tract Soc. are now both standing still — the *presses* stopped for want of *paper*. We need elementary *School-books* such as *Spelling books*, *Grammars*, *Dictionaries* & *Reading books*. If you can send us two or three dozen of each they will be very acceptable.

Please to present my Christian regards to Mrs. Hill and to the Brethren at the Rooms.

I remain, very truly
My dear friend & brother,
Yours in the Gospel.

Madras Nov. 9. 1837.

Henry Hill Esquire,

My very dear Sir,

In the late arrangements about funds, of which Mr. Meigs has doubtless informed you, there was some difficulty in deciding whether in dividing the Estimates between Jaffna & Madura, we at Madras were considered as belonging to the former or latter. — We had been receiving our supplies from Jaffna, but their funds were gone, so that if we rec^{d} any thing farther, it must be by loan or anticipation of remittances for 1838 — This was in August, and there were four Months expenses to be provided for. At Madura they had made their arrangements to lend the Jaffna Mission R^{s} 5000 — and they could spare no more, or in other words could not supply us — Under these circumstances, Mr. Meigs sent us a Bill on London for £300 — which was sold in anticipation

of the letter of credit for 1838 ——
Since then he has sent several mor
Bills to be sold for the Jaffna Missi
in the same way, on account of the
present rate of exchange being more
favorable than it has been for some
time; and the Madura Mission ha
also decided that the Rs 5000, which wa
made a loan should be considered as
transferred for the support of the
Madras Mission. — I mention these cir
cumstances that you may understan
why the Bill for £300 was passed, w
would not have been necessary, at
least on our account, had the transf
of the Rs 5000 been made earlier. The
was no fault in its not being so at the
Brn. at Madura did not seem to appr
hend that we were to have supplies fr
them — It probably makes no dif-
ference on the whole as the Jaffna M
sion must have passed the Bills in an
ticipation for themselves if they had no

done it for us.—

I believe you are fully aware the loss sustained by the Bills on Messrs Baring Brothers & Co being drawn at a long sight— this is particularly the case *now* when there is so much apprehension as to the stability of the *firmest Houses*— If it could be possible to allow of our drawing at 30 & 60 as well as 90 days and especially not *beyond* that it would be saving more than twice the common interest in Am— besides facilitating the sale— but in the present embarrassed state of Commerce with you this is probably impracticable.—

I hope yourself & dear family are in health— My affectionate regards to dear Mrs. H.— You both I am sure sympathise with me in my deep affliction and sometimes remember me in your prayers, I should be glad to write more at length but my time is gone—

Very Affec. Yours,

My dear Mr Hill,

I had the pleasure of receiving the circular from the Rooms with your letter annexed three weeks ago. In regard to drawing Bills on yourself I think it would not be advisable as they could not *here* be sold to advantage. — The Am. merchants in Calcutta also want their funds there I believe and not in Am —. In consequence of the panic concerning the Am Houses in London the Bills on *Baring Brothers & Co* have been a little doubted and have not sold as well as the Bills on English Societies but the rate of exchange has improved of late. All the Bills at 90 days for some time have sold at 2/ the Rupee —— The Bills drawn by our English Brn. on their *Societies* in sums to suit purchasers and often at 30 days are worth more — those at 30 being now at the lowest 1/10½ — the Govt. Bills for the same being at 1/10d ———— Our *six* months Bills will bring at the rate of about 2/½d probably. ——— We have reduced our allowance a little at Madras as will appear from the An. Rept which I hope to send by ship next week ————

It is desirable that we have an *Agent* in England, who may receive & transmit letters & packages by *ship* & by *steam* from and to Am. & India. A friend here has mentioned

186

Perhaps I ought to mention, if I have not, hat there is a loss in selling bills on England, in the way ve do, compared with that of other Missionaries here; as they y drawing the bills themselves, and at longer & shorter lates, as 30 days 60. 90. &c. are able to suit purchasers, both to amount & time; whereas the bills are sent to me from affna & Madura in fixed sums & dates.— Their being drawn at a longer or shorter sight cannot perhaps be remedied, in the present state of your funds; but as to drawing at a time, and in ums, to suit purchasers, that would be of course by having them all drawn by the Treasurer of the Madras ission, who negociates them. All that are to be sold in this lace should be thus drawn when the things get in a proper train.

It was designed in forming the Mission to secure this advantage, if it continued to be necessary to negociate the funds for Jaffna & Madura at Madras, by making the Treasurer of the Mission here a general Agent for the others also; and this was recognized in the Plan of Union; but things having been in a fluctuating state, as to funds, we have not proposed to have the letters of credit varied from what they formerly were. Perhaps it may be thought expedient at the meeting of delegates, next month, to propose this arrangement, but something perhaps will depend on my state of health & prospects unless some other person should come to Madras acquainted with the business sufficiently to manage it.— With the present arrangement there is a good deal saved compared with the former method of having all done by a House of Agency. The Comm. & difference of price is said to be at least 5 p Ct which on the transactions of a single year for the three missions, allowing the expenditure to be $40,000, would be $2,000— The Bills for the last year have not all been sold in Madras, but more than Rs. 70,000 have been sold, which at 5 p Ct would be Rs. 3,500 and on which even the Commission of 1 p Ct would be Rs. 700. There is therefore some advantage in having an Agent in Madras and some offset to the expenses of the Mission.

In regard to obtaining funds by selling bills here on America I have communicated in a letter sent by overland despatch a few days since. I do not learn that bills on Boston could be sold to advantage either here or in Calcutta.

My dear Mr. Hill,

Annexed is a Copy of the ann
accounts of this Mission, made out according to
scale of allowance which our experience, thus far, l
us to think proper. We may possibly find occasion
alter it. There is a reduction from last year in

answer any purpose, as Mission houses, for less than 5
60 Rupees a month. The London Miss. Soc. allows Rs. 70 —

There appears on the Accts a balance d

Your hope was that I would draw direct on you but this would be of no use here — and the only way was to draw as usual only making the term 90 days as the money had been received — A longer date would have made it less valuable to Mr R — (He is now gone & does not need it but the mission were a good deal in straits before his death. I had the pleasure of forwarding this money before his sickness which was very short. The Mission will probably now be broken up — It may be best that it should)

the amount due Mr. Rhenius $640 — a bill on Baring Brothers & Co at 90 days for £128 — This was the only way in which that amount could be paid.

The rate of exchange is now again more unfavorable than it was but by my being on the spot and taking advantage of the market any great loss is prevented. This, however, makes it sometimes necessary to pass the Bill a little earlier than would be necessary if we could depend on a sale at any time; which we cannot, even at a loss. Hoping that the Board is at least partially relieved from its embarrassments, and that its means of usefulness will be greatly increased — I am &c most truly & affectly Yrs. M. Winslow

My dear Mr. Hill,

I send an Indent of Articles needed in the printing Establishment & book binding — if they can be forwarded from Am. I have not ascertained whether as to many things ordering them from Boston or London will be most economical. Shall learn perhaps by experience. The duties are much greater from the former.

I have recd your letters of Credit dated October 18 1837 and Jany. 17. 1838 — for £500 each and have drawn on them as follows —

No 1. Favour of Messrs. Dunhill & Co at 6 Mos on Messrs Baring Brothers & Co £500 — May 17. 1838 —

No 3 – 7: Favour of Do at 6 Mos on Do — five bills of £100 each — June 18 to 22 — 1838.

Madras Augt 30 1838.

To Henry Hill Esq.

Very dear Sir —

Yours of March 28th — was received yesterday by the Hindostan from London with its enclosure of a letter of credit for £500 at 6 Mos sight. This is the third which I have received; and all since my return from Jaffna in May. As no letter of credit had come to hand, the Bre. at Madura drew bills without; supposing themselves authorised to do so, to the limit mentioned for their expenditures. These bills have been passed to the amount £1183 at 90 days and £1000 at 6 Mos sight; concerning which Mr. Todd has I suppose written. These have all been drawn within the year. Mr. T. at first sent me all the bills at 90 days; but on receiving your letter of credit for this Mission at 6 Mos I wrote him that no doubt your intention was to have the bills drawn at 6 Mos — sight. I have passed bills at 6 Mos for both the former letters of credit to me and this makes for the year for Madura & Madras £3,183. They will not probably need much more at* Madura than what is due them from their sales. The Bills have been disposed of to take advantage of the market, and as it was

convenient to dispose of a large bill
a good offer being made I sold for them
bill of £500. instead of small bills from
Jaffna; and have advanced the Jaffna M
sion money from our funds —. I have
on hand for that Mission £750 in bil
to be sold, for a part of which have ad
our own money. We have not, therefore,
king the *three* Missions together, drawn
England faster than was necessary, tho
Madura is supplied for the greater pa
of the remaining four months of the ye
We understand that your year, begin
& ending with May, is to correspond wit

the former allowance, and that such pa

Treasury may, if necessary, be drawn fo
by us — It is with this understanding
I have passed the Bills for £1000 # on the
letters formerly recd although in the aggr
with those disposed of for Madura we h

exceeded the allowance of £2800. I have done this to meet the first instalment on the Printing Establishment Rs 3000 which has been paid a little in anticipation. As Bills to such an amount have been sold for Madura, without any letter of credit, the one now received will not be made use of at present. I cannot now determine how much more we shall be obliged to draw this year, but we shall of course confine ourselves to the allowance of $14,700 with the additional grants, including what is paid in by the Bible & Tract Societies. ——— I have before mentioned that if liberty is given us to draw for a definite amount in a certain time, as you may see fit, it will answer our purpose just as well as a letter of cre the bills are always sold on the credit of the Mission, which has been invariably sustained.

I write in great haste, and you will excuse my adding more except the Memd of Bills passed. If it is convenient for you to send to us by the Overland dispatch, now & then, letters may be directed to an Agent of the Missions in London — Mr Joseph Symms No 27. Hatton Garden London. We now get letters by Overland usually in 50 days from England and if sent from Am. by Steam we might receive them in little more than two Months & sometimes less —

With kindest Chr. regards to all at the Rooms and to Mrs A. Yrs truly M. Winslow

My Dear Sir,

Your acceptable letters of April 13th and 16th by the Brighton of March 28 and May 10 by ship from England, and of July 6 and Augt 9th by the Overland have all been duly and gratefully received, as also the duplicates of some and the several inclosures of all. In all have arrived the following letters of credit.

March 21. 1838	£ 500	
April 11	500	
July 5	1000	
August 8	1000	£3000

Previously received were letters of credit

Oct 18. 1837	£ 500		
Jan. 17. 1838	" 500	£1000	£ 4000.

and in the letter of April 13. 1838 by the Brighton an order on Messrs Cockerell & Co for Rs 1000. The letters overland, especially that of Augt 9 had a speedy conveyance. As requested I have paid Mr Rhenius $ 640. Mr Ward $100 Mr Tracy $ 20 and the Rio Caracpit C. Acaloon $ 500 I have drawn on Messrs Baring Brothers & Co as yet only the following bills

1838. May 17.	No 1	For Messrs C. Dunhill & Co	6 Mos. sight		£ 500
" "	" 2	" G. Van Someren Esq at	90 days		" 128.

" 21	" 6	" "	"	"	100
" 22	" 7	" "	"	"	100
					£ 1128.

The Bill at 6 Mos was drawn to pay the $ 640 to Mr Rhenius as it was the only one that [illegible] which it would then be done so that I have drawn only £ 1000 on the Mission Account at 6 Mos sight — For the $ 500 to Mr Aratoon I have sent a draft on our Agents for Co Rs. 1000 so that this just balances the order sent us by you on Messrs Cockerell & Co —; and leaves excepting the sums paid Mr Ward & Mr Tracy, the amount of the £ 3000 as undrawn remaining for the Missions. — The reason why I have drawn so little is that bills had been passed both by the Madura Missions & Jaffna, especially the former, for nearly enough to meet their expenses for the year (including the £ 1000 which I had drawn on the first two letters of credit) before I received any intimation from you that the letters of credit for them also would be sent to me. — If you have received former communications of mine on the subj You will understand that having passed their Bills I have refrained fr passing my own. I have written to Madura & also to Jaffna to ascertain distinctly to what amount they have received letters of credit for the year and to what amount they have drawn on them so as to kn how large a part of the £ 3000 may be considered as already anticipated — Learning that & understanding that for the present the letters of credit or leave to draw to a certain amount whether for Jaffna or Madura will be sent to me - I shall endeavour to keep with the limits. In the mean time I trust that the Bills drawn by Mr Todd & Mr Meigs even in excess of the letters sent them will be duly honored by Messrs Baring, Brothers & Co as I shall endeavour to draw so much the less on the letters sent me. As mentioned in a former letter there is no advantage in regard to the sale of Bills here in our having a letter of credit above that of a simple permission from you to draw to a given amount. — The whol ~~amount~~ which I have passed for Mr Todd this year is £ 2,183 and I am not aware of his having drawn any others - If he has not and if the Jaffna Mission have not much exceeded their lette of credit, there is something still remaining of the £ 3000 — ack ledged above — We have to pay an instalment on the Printing Establishment next month of Rs. 3000 and wish to pay in

January for the Chintadrepettah house 2,900. We have paid Rs 1000 for Bibles or rather Testaments bought and intend to print soon a selection from the Scriptures — There has also been an expense of 500 Rupees or more in tours for the distribution of scriptures & Tracts. For the Tract Society we are printing a Volume as before suggested that we intended to do. Of the grants of these Societies we must borrow enough to meet the instalments on the Press and then we will clear off the accounts by the preparation and distribution of books, as fast as possible afterwards — Having heard from Jaffna & Madura of the state of their pecuniary affairs and made up our accounts at the close of the year I shall be able to inform you more distinctly what we have and what we shall need — Our subscriptions here for schools will meet the expense of that department for the last year and the £1000 which I have sold will more than cover our ordinary expenses; but not of course the instalments on the Press and the payment for the Scriptures For the next year we must either dismiss most of our Schools or include the expenses in our estimates as at present it is not advisable to solicit much from the public here. What we asked was under the temporary pressure of the times — It is different at Madura. Our estimates for 1839 are

Family Expenses for the two families including house rent & conveyance	£	575.	0	0
Schools on a reduced system		150	0	0
Native Assistants Do		50	0	0
Contingencies exclusive of Bibles & Tracts & of expense of tours for their distribution		125	0	0
	£	900	0	0
Note. All on the reduced allowance	Rs	9000	0	0.

Extras

Payment for the House at Chintadrepettah	Rs	2900	0	0
Do four remaining Instalments on the Printing Establishment less by sale of Paper to the amount of nearly One and of profits say nearly to another leaving about	"	7100	"	"
	Rs	10000		

These two sums together will be about the same as £ 2000 in bills at 6 Mos sight. This of course is on the supposition that funds are provided to pay the instalments on the Printing Est. and not borrowed from the grants of the Bible & Tract Societies

We are in want of the following Articles for the Press

For the $500 to Mr. Aratoon, I have sent a dr

balances the Order sent us by you, on Messrs.

small sums paid Mr. Ward & Mr. Hodge, the
amount of the £3000 as undrawn remaining for
the Missions — The reason why I have drawn
so little is that bills had been passed, both by
the Madura Missions & Jaffna, especially the
former for nearly enough to meet their expenses
for the year (including the £1000 which I had drawn
on the first two letters of credit) before I rec.d any

to ascertain distinctly to what amount they
have rec.d letters of credit for the year, and to wha
amount they have drawn on them, so as to know
how large a part of the £3000 — may be considere
as already anticipated. — Learning that, and
understanding that for the present the letters
of credit or leave to draw to a certain amount
whether for Jaffna or Madura will be sent to
me, I shall endeavor to keep within the limits.
In the mean time I trust that the Bills drawn
by Mr. Todd & Mr. Meigs, even in excess of
the letters sent them, will be duly honored by

The whole amount which I have passed for Mr. Todd this year is £2183; and I am not aware of his having drawn any others. If he has not, and if the Jaffna Mission have not much exceeded their letters of credit there is something still remaining of the £3000 — acknowledged above — We have to pay an instalment on the Printing Est. next month of Rs 3000 — and wish to pay in [illegible] for the Chintadripettah house 2900 — We have paid Rs 1000 — for bibles & other testaments bought — and intend to print soon a selection from the Scriptures. There has also been an expense of 500 Rupees or more in tours for the distribution of Scriptures & tracts — For the Tract Soc. we are printing now a volume, as before suggested, that we intended to do — Of the grants of these Societies we must borrow enough to meet the instalments on the Press and then we will clear off the accounts by the preparation & distribution of books, as fast as possible, afterwards — Having heard from Jaffna, and Madura, of the state of their pecuniary affairs, and made up our accounts at the close of the year, I shall be able to inform you more distinctly what we have and what we shall need — Our subsc[illegible] here for Schools will meet the expense of that department for the last year, and the £1,000 which I have sold will more than cover our ordinary expenses; but not of course the instalments on the Press and the payment for the Scriptures — For the next year we must either dismiss most of our Schools or include the expense in our estimates, as at present it is not advisable to solicit much from the public here. What we asked for was under the temporary pressure of the times. It is different at Madura. — Our Estimates for 1838 are

	£
Family Expenses for the two families including House Rent & Conveyance &c	575. 0. 0
Schools, on reduced system	150. 0. 0
Native Assistants " D°	50. 0. 0
Contingencies exclusive of Bibles & Tracts and of Expenses of tours for their distribution	125. 0. 0
	£ [illegible]. 0. 0

All on the reduced allowance.

Extract.

Payment for the House at Chintadrepettah	Rs 2900
Ditto four remaining Instalments on the Printing Establishment less by sale of Paper to the amount of nearly one & of profits say nearly to another (leaving about)	7100
	Rs 10,000

The two sums together will be about the same as £2000 in Bills at 6 Mo sight. This of course is on the supposition that funds are provided to pay the Instalments on the Printing Est. and not borrowed from the grants of the Bible & Tract Societies.

Madras Jany. 15. 1839.

Very dear Sir,

I beg to send herewith our Annual Accounts. Besides those with the Board are the accounts of the Bible & Tract Societies —. We have credited to each Society the grants of which you have advertised us as paid into the Treasury, and charged the same to your account. This method is convenient, for sake of distinctness, and to prevent confusion — though all the sums credited and charged should not have been actually drawn — as is the case in the present instance. The apparent debt of the Board to the Mission is only nominal to be cancelled when the Bills are negociated — To favor your funds this of course is done only as fast as needed. —

The items in the Accounts need, I trust, but little explanation. The expenses of the Schools are charged; but an equal amount is credited, as funds for their support have been raised here. In the same manner the expenses incurred for the purchase and distribution of Scriptures & Tracts are entered, to show at once the entire outlay of the Mission; but this entry is balanced by a credit on account of the Bible & Tract Societies —. The amount paid for Chintadrepettah house includes Interest, but a small deduction was made by Messrs. Arbuthnot & Co. from the common rate, so that there is quite a saving compared with the expense of Rent, as before paid, even with the Interest & assessment & some repairs. —

The grants from the Bible & Tract Societies for 1838. of which you have informed us are from the former $5000 & the latter $3000 . as credited —. They are entered at the rate of 2 Rupees to the dollar for convenience, and because, all things considered, when the rate of exchange between America & England is so high as it has lately been, this is not far from the real value —

though the worth of a Spanish dollar here is about 2 Rs 3 A. or at times almost 2¼ Rs in the Market. But the premium insurance freight &c on Spanish dollars would nearly or quite make up the difference. At any rate it is only a loss & gain between those Societies & the Board.

We have, as proposed, taken from the grant of the Bible Society what was necessary to meet our installments in the Printing Establishment — this must be followed by a farther loan from that and the Tract Society to meet the payments of this year, as far as those funds will allow, unless we receive means of doing it from the Board —. It is the more desirable that the latter should be the case, because there is an engagement to the amount of Rs 1500 of the balance due the Bible Society for the printing of 3000 copies of a selection from the Tamul Scriptures, and we wish if possible to publish several tracts besides the little Volume now in the Press — which in addition to the portion of the gran to be sent to Madura & Nagercoil will not leave much at command for liquidating the debt on the Press. —

The Amount of the Letters of credit undrawn as given is £ 2,450; but, as I have stated in former letters, perhaps a part of this should be considered as already drawn by the Madura Mission, they having, I suppose, somewhat exceeded their letters, though they have not informed me to what amount. It will probably be necessary for me to draw most of the Bills for these at the most favorable time for selling — the opening of the season — to meet the urgent demands of the different Missions. — I remain, very dear Sir,

With the sincerest regar

Yours in the Gospel

We took the Press on an Inventory made out the preceding Jany at 15,000 and Stock estimated at 3000 more. The Agreement was that taking the Inventory mentioned as the basis the val was to be Rs 15000 and that any thing in excess or deficiency was to be accounted for or deducted accordingly — In transferring the property there was in most instances more than the Estimate which if the account now just sent in to me is correct will increase the price with some additional Stock about Rs 1600 — I hope that a full Invoice will be ready

Very dear Sir,

By the Overland in July I forwarded a list of Articles needed for our Printing Establishment — and again a list in Nov. If those requested in July have been sent there may be a delay of six or eight months, from the time of sending them before those on the other list are forwarded, except such as are not on the first list. These are I believe the following

300 lbs. Pica Type Roman
50 " Italic.
20 " Space Leads.
24 brass Gallies. 6 inches broad 20 long.
2 Doz. Ornamented brass Rules 1 to 6 in.
4 Medium Iron Chases.
12 Demy D°
8 Foolscap D°
8 Quarto D°
8 Small D° of sizes.
1000 Glazed Boards for Hot Press.
2 Kegs Printing Ink.
12 [illegible]

Something of course depends upon the opportunity of sending since it i very desirable that they be not direc to Madras, and it would be better to have them on hand, before needed than to need and not be able to obtain them — Some things, for sake of eco & the preference in quality it will be necessary for us to order from England from time to time. The difference in duties, as to many articles, will m them as cheap — For some works we must use English Paper —

Our Estimates for the year 1839 are forwarded by the Overland —

Family Expenses for the two Families including Rent conveyance &c —	£575.
Schools on a reduced system —	150.
Native Assistants do —	50.
Contingencies exclusive of Bibles & Tracts & Expenses of Tours —	125.
	£900.
	or Rs 9000.

Allow the reduced allowance.

Extras —

Payment for House at Chintadrepettah	2,900
Four remaining instalments on* the Press [illegible] by sales & profits (say)	7,100
	Rs 16,000

Note. The House is now paid for — There will be an advance on the Price of the Printing Est lishment of perhaps Rs 1300 —

In looking forward to 1840 — we wish the Estimates *to be increased* in *proportion* to the *additions* made to the Mission; and if *possible* to have the means of commencing a *Boarding School for Girls*, not at first on a large scale — This we consider an object of *much importance* — and also to make the Native Free Schools *efficient* — to *increase* them if means can be had. We have also decided to begin immediately a *subscription* for a *Native Chapel at Royapooram*; and if the Board can in any way help us we shall be much rejoiced. It is *exceedingly desirable* that we should have a neat little Chapel with the least possible delay — the Congregation is already crowded & would be at once enlarged — The expense would not be we hope more than $3000 for a Chapel & Schools attached and a large part of it we hope may be raised here — With continued & most sincere Chn regards Yours affec

My dear Mr Hill,

I enclose a Duplicate of our Accounts for the last year — the original with an explanatory letter was sent in Jany. by the Valparaiso — As that will, I trust, have been recd and I write now in haste for a Ship in the Roads I will not repeat. In general the items in the accounts are perhaps sufficiently intelligible — The entry for the Chintadrepettah house includes the interest for nearly a year, at the reduced rate of 5 p. Ct. — There is of course quite a saving to us from this purchase, compared with what would have been the expense of rent —. The two instalments on the Press amount to Rs 5000 — which is borrowed from the Bible Society's grant —

Since writing I have ascertained that the Brethren in Madura recd no letter of credit the last year — I apprehend, consequently, that we are somehow in advance of you, in our Accounts. All our reckoning is by the civil year, as our accounts are made up at the end of Decr and we have supposed that

your appropriations sent previous to
the end of your financial year, or for t
current civil year; that what you sent d
to Augt 1. 1838 was for our year 1838 — But
so we are in arrears, as there were not Let
of credit enough prior to that time for the
expenditures of 1838 —— but these would
about all that seem to have been drawn with
the year. —— It may be proper to mention th
the Madura Mission went upon the suppo
which to me seemed rather doubtful, they
all the letters which they had recd previo
to Jany 1838 — were for the year ending wi
Dec. 1837 —— and as there was by this reck
ing an excess of about £1,000 not deducting
something supposed to be remitted for Bib
& Tracts — they added this to the allowan
for 1838 — or rather took it to enable them to b
or prepare dwelling houses for the newly arri
families, who had not been able before to
expend the money given them on leaving
Am. for this purpose —— It was only in
this view that there could have been any
propriety in exceeding the limitation of
the Comm. as the money being in the
would not justify it — According to the d
that ~~must be~~ should have been added to the available fun
for the year, and from these the allowances
drawn according to the Rule. Whether eve
under these circumstances they did right i

to making their expenses for the last year greater by nearly the whole sum than the limited allowance from the Com. before go to others to decide. We see for Madras only the proportion agreed upon between the Missions *according to the limitation*; and our Schools were supported by local subscriptions. The agreement was that we should have R^s 6000 to which was a conditional addition of 750, not drawn —— For the present year that mission have proposed to give us only R^s 5000 of the R^s 28000 to be divided — though this year we have two married Miss^{ys} (whereas last year one of us was single) — and 8 children —— while two of their Miss^{ys} are unmarried and they have only 10 children —— The proportion is not equal as our *necessary* & unavoidable family expenses alone including rent will exceed the R^s 5000 by 500 or more and theirs fall short by more than R^s 3000. They will of necessity reconsider the subject and no doubt do what is right; but it will be better to have the remittances for each Mission *distinct* & *separate*. It could not be done by you before this but as the estimates are now sent home separately I trust it may be hereafter ——. You will please to understand me as speaking of what will be convenient to prevent difficulty hereafter and not as implying any contention now. There has been & shall be none — as Mr Todd of that mission, who is the bearer of this, will I think support me in saying ——

As to the State of funds — since this year came in I have been obliged to draw —— largely for the wants of Jaffna & Madura as well as Madras; and the more so as it was necessary to do it to ensure a favorable rate

196 of the Bills — As they are drawn at 6 m
it is only now & then that a favorable opportunit
dispose of them is offered — I have sold at 2/
the Rupee as the lowest (nearly all at that rate) w
the Am. ships, that have been here, have sold at 2/2
and at Calcutta still lower than that

My dear Sir,

The Printing Paper &c sent by the Augustus has been brought here. It is very favorable that the ship has come to Madras as it saves us the freight on the goods — The paper is all brought here by direction of the Jaffna Mission — We shall not need any more at present but I shall write probably by Overland on the subject and in regard to our funds as the Augustus by which I send this does not go direct to Am—. As I have mentioned it would appear that we have got before you in our accounts as the letters of credit for last year did not equal the expenses of the Missions according to the limitation.

We were within the limit except
that the Madura Mission coun
that £1000 on hand the beginnin
of the year was sent for the year pr
ceding for buildings &c. and actua
it for that purpose & for schools ——
had some doubt at the time whethe
all of it was intended to supply th
deficiencies of the former year but
they thought so and made their ac
accordingly. Mr. Todd will howev
explain how it was and the fact
now is that as the Madura Mis
drew a great part of their expense
for the year without a letter of cr
and now we have drawn to the
Amt of the letters sent within £50
and must soon draw again it is
pretty evident that we are in adv
of you in our reckoning —— But
as I said I must write by a more
direct conveyance and will not add

You will much oblige me by kindly forwarding the enclosed letters — one by Mail to Mrs Downer and one by private conveyance to My daughter Joanna — the letter would not go as a single letter and it is not necessary that it should go in haste ——

Please remember me very kindly to Mrs Hill — as well as as to the Bre— at the Rooms and the Com— and believe me —

* This as in the Acct for last year

There is of course only £50 undrawn of these letters of credit — The Madras Mission has voted that there ought to be drawn ~~for~~ that Mission and the Common expenses of this £3600 this year of which they wish £3400 for themselves — In Jaffna I suppose they intend to draw about £4200 —

We at Madras must pay the remaining instalments on the Press less by profits & sales as pr Estimate sent, Rs 7100 / 1300 / Rs 8400 and the additional for excess of type & stock say or about £860 at 6 mos — and for Bibles & Tracts, if funds can be had over paying for the Press say 740 £ or for all extra purposes of the Mission £1600 — This is a mere rough estimate dependent on the amount expended for Bibles & Tracts which however cannot be much less than this according to engagements already made and which ought greatly to exceed it — There would then be needed for the year taking the above as for 1839 which is not very far from the fact,

for Jaffna — say £4200
Madura & Madras — 3600
Madras for Press &c — 1600 £9400

The sale of Bills is just now very dull — account of the long sight (6 mos) and partly on account of some rumors as to the stability of the House on which they are drawn — I have of late at 2/1 at 6 mos and some a little better at the beg of the year but now 2/1½ — The Am Ships here have sold 2/2 & 2/2¼ at 6 mos — U.S. Bank —

I hope other letters of credit will a before I am obliged to sell more — unless it is conclu to give us directions to go on without — but they are crowding unexpectedly from Jaffna & Madura fo funds — Mr Todd's going home made the expens at the beginning of the year heavier than they w otherwise have been — It will be my effort manage so as to save the funds of the Board as m as possible while the object for which they are se properly kept in view —

Very dear Sir,

I wrote by the last overland on the 11th mentioning what Bills I had drawn, &c. — Since then I have passed no bills but shall be obliged to soon. As I mentioned of the letters of credit received, only £50 remained undrawn. I have since had notice of £1500 being sent which I have not received. Perhaps it was forwarded by the Champlain which has not arrived. I shall be obliged of course to draw without waiting for it if it does not come soon. There is some difficulty in disposing of bills now, and I am afraid it will be increased by the fear of war. The direction to pay the $1000 to the German Missionaries will be attended to as soon as I can learn that they are in a state to receive it. Mr Schaffter has joined the Church miss. soc. & it is a little uncertain whether Mr Muller will remain at Tinnevelly or join the London Missionary Society.

We do not need any more printing paper sent out at present as the 1200 reams by the Augustus all came here. It will not be well to send more until requested.

Madras Augt 31. 1839.

Henry Hill Esquire,
Very dear Sir,

It was my intention to write you a few lines by the last Overland but at the time it left I was prostrated by a fever from which am now but just recovering. — My object was to show the State of our funds and that we should need bills or letters of credit to a greater amount than you seemed to suppose. My former letters will, however, I think have shown this. The Jaffna & Madura Missions have both drawn more in the 8 M^{o} of the year than 2/3 of their whole allowance and of course will draw less in the remaining months. The Order in favor of Messrs Schaeffer & Muller for R^{s} 4,000 $500 is not yet paid and we have two instalments more to pay to pay on the Press — The Ceylon Mission are to have R^{s} 4000 for the grant of the Tract Soc. — It will therefore be necessary in meeting all the demands to draw in course of the next four Months nearly or quite £3,500 — The amount drawn already this year is I think £7,000 — Perhaps £3,500 would finish the year. This would make in all £10,500 for 1839 — or a little more than £2,000 above the allowance to these Missions by the last grants of the Com. Of the £2000 — the German Miss^{ns} have 100 Jaffna for Tracts 400 — the Press (say) 500. — and for the grants of the Bible & Tract Soc. to this Mission 1,000 — including a part of the debt of last year for the Press.

But what I have more immediately to say is that the letters of credit are now exhausted and I shall be obliged to draw in course of two or three weeks for 800 or 1000 Pounds whether letters arrive or not, supposing that you

will authorize my doing so when I kee
within the allowance to the Missions a
are driven by necessity to meet actual
penses — I will add here a statement of

261 Madras Oct. 18. 1839.

My dear Mr. Hill,

I wrote you by the Overland [illegible] since mentioning that I had drawn on you in course of this year £7000. and should probably be obliged to draw about £3,500 more before its close. I did not then recollect that you had directed me to pay the German Miss.ʸ $1,000* besides the $500 — which I mentioned. This would have added so much to the estimate. Besides this since then in the preparations for Mr. & Mrs. Hoisington to go to Am— as well as Mr. & Mrs. Meigs with their children and Mr. Minor's voyage to Singapore there have been and will be additional calls for funds; so that probably the sum mentioned should be increased about £500. tho. I cannot say exactly. — I have not rec.ᵈ since I wrote, any letters of credit. Even that of May 15. mentioned in your letter Overland has not been rec.ᵈ — The Bills on it are however drawn and I have been obliged to exceed that sum also and have within a few days passed two others (as p. Mem.ᵒ) to the amount of £1500. for which as yet no notice of a letter of credit has been received. Mr. Minor having gone to Singapore Mr. Hoisington to Calcutta in expectation of going home Mrs. H. having come here, and Mr. Meigs and his family also with the same object,

* however concluded to remain where he was and Mr. Schaffter who is now here thinks it to be proper to pay over the money to him.

has made it necessary to draw mo
largely already than was expected. I hope,
however, that the Missions will be able
the whole year together to keep nearly
their estimates, or the allowances. Our instalments on the
this year have of course drawn hard u
our funds —— I hope it will not put

I am sorry to have been obliged to exceed at all the letters of credit, but when the Missions send to me for money, which I know they need and must have, or ~~their Missions must~~ suffer I feel obliged to go as far for their accommodation as I suppose the Com. will allow, and if I go too far you must, if you please, set the exact bounds — At the present time the Jaffna Mission are I believe in advance of the Bib. My dear Sir

Your letter by Mr. Hunt was received this day though not the Letter of credit. Mr H. forwarded the former from Madeira by an English Ship — The Black Warrior has not as we learn yet arrived at Colombo since writing but I have passed another Bill on Messrs Baring Brothers & Co for £

viz No 27. Dec 24. Mr J Van Someren £500 at 6 M

This makes as I before estimated the amount of £1000 in excess of Letter rec^d — but this has been made indispensable in looking forward to beginning of next year as well as closing the accounts of the last. — The Jaffna Mission have by vote authorized and requested me to draw for them £4232.13.0 — and this is at least £150 less than their expenses for the year (if the accounts are correct) not including Mr Meigs & family passage to Am. which must be paid probably before the 1st Sept — The Bible Soc seems to be generous to that Mission — The Madura

Mr Meigs is here waiting for a passage on the Northampton expected before the end of the month.

London Missionaries — as Mr. Lechler, who was with them,
has done — ; but when he concluded to remain the Order
for $500 — was signed by him, and Mr. Schaaffter, and has
been paid. Before paying the other $1000 — I waited to
know more definitely Mr. Schaaffter's feelings. He wishes to
do what he can to help Mr. Muller, at the same time he
does not think it well for him to remain at Tinnevelly;
and then I believe it is the general opinion here as it is
keeping up that unhappy contest which has been so long
to be deplored. — In case the donors wish the money paid
to Mr. Muller only Mr. Schaaffter states that about Rs 800 is
due him for a Geography of Palestine, which he published
for the Mission while connected with it, and which he
thinks ought to be repaid him. Any further than this
he has no claims. — When those to whom the money was
to be paid are prepared to receive it, or the donors direct
to have it paid to Mr. Muller only, I will pay it over; but
it will I hope be understood that I act merely as an
Agent in the transfer, and that the Am. Board, or that I
as their missionary have no part in sustaining the op=
position, as it would be a great discourtesy to the Church
Missionary Soc. — Perhaps some further instructions
may come from Am. before I can hear in answer to this,
If the $1000 is not paid I shall draw for it in March [illegible] this year.

Since writing by last Overland I have drawn

My dear Mr. Hill

You will oblige me by kindly forwarding the annexed Note to Mrs. Hall, and by paying to her order the Draft for $1750, which I make equal to Rs 3300, rec'd here, on her account, for the Mission. The nominal exchange for the dollars is Rs 2. 3/16 — but for this we must have dollars to sell. Reckoning the interest &c. and considering that we reckon two rupees to the dollar for remittances to us, I have thought it would be right to make the exchange to Mrs. H. the same. If you think differently it can be corrected when another payment is made, as there probably will be by & by on the legacy.

Since writing this, I have seen the Rev. Mr. Schaffter, formerly of the German & now of the Church Mission, and he concurs with me in opinion that in regard to the $1000, which in a letter dated Feb. [illegible] you wished me to pay to the Rev. Messrs. Schaffter & Muller, it will be better before paying it to refer the question of payment to Mr. Muller fully to the donors. [illegible] stated recently it was not fully settled that Mr. Muller also would not leave and [illegible] as he was invited to do the [illegible]

the case, so that whenever
ble you may make such
alterations as you may
deem expedient — The
circumstance of Merchants
drawing their bills at 6 Mo
would not in itself seem
to make it necessary for
a Missionary Society to
do so — * The English Society
draw at 30, 60, 90. days &c
nd one of them (the Wesleyan)
I was told the other
day by Mr. Crowther — who
manages its concerns here —
has through the whole
of this season obtained a
Rupee for 2/ — while we

2/2 for the Rupee — Their Bills were at 60 days and ours at 6 Mo — We might not do quite as well as they, at the same sight, because they has customers accus=tomed to take their Bills,— who know there cannot be any risque — but a shorter sight would much improve our Sales; ~~on~~ on average, I should suppose twice the usual rate of interest in England —— When men see a Bill at 6 Mo, on a Mercantile House, there are of course a thousand supposi=tions as to what may happen (as the most established Houses sometimes fail) before the 6 Mo are expired —

But Mr. Miggs con

explain to you the state of things better than I can write. I therefore commend it to his & your mutual consultation —

Yours obedly —

M Winslow

P.S. — It has been advised, and I think judiciously, that the Agency for the Missions at Calcutta be transferred from Messrs Cockerell & Co to Messrs Adam Freer Smith & Co. — as in the latter Firm is an American friend (Charles Huffnagle Esq of Philadelphia) and they do business in a way more likely to accommodate us —

Madras Dec. 23. 182

To Henry Hill Esq

Very dear Sir,

I have requested Mr. Meigs to be so kind as to explain to you at length the state of our Exchange here and particularly the loss we sustain by having bills drawn at so long a sight — It may be impracticable to effect any change now while the exchange between Am. & England is so unfavorable; but it is proper to put you in possession of the facts of

Madras Jany 14. 1846.

To Henry Hill Esq.

Very dear Sir,

In the midst of a press of business, connected with the Press, as well as the An. Meeting of our Tract & Book Society, of which I am the Secretary and have the Report &c to prepare, and my other Missionary duties, I have been able only to get the Accounts ready to forward by Mr. Meigs; and not to prepare a suitable letter of explanation. In connexion, however, with what I have from time to time communicated, Overland, they will, I trust, be found intelligible.

The sums charged you for the Jaffna & Madura Missions are regulated by their own Votes, and will, I suppose, appear in their Accounts to your credit. Our own Ex., you will observe, deducting what is charged the Bible & Tract Societies and collected here for Schools, is only Rs 4689. 2. 6—; and including these is a little less than the sum allowed us by the Committee, for ordinary purposes. There is charged you Rs 12,000 for the remaining four Instalments on the Press, including the Stock purchased of the C. M. S. All is now paid, and the Establishment is only indebted

to the Am. Bible Soc. the Rs 6000 advance
from its funds last year. This has not b
transferred to your debt, because we coul
not consistently draw on you for the Mo
and did not need it to expend the last
year. It will, however, be needed the pre
unless the Society should make us other
grants, as we have now in the Press an
edition of Acts 20,000 — have the Gospels
which have been printed to bind — and
are under engagements to the Madras
Bible Soc. to pay Rs 1500 for a selection of
Scriptures which they are printing — The
will take about the whole of what is due
on account of the Press, and the balance a
it appears in their account —

To the Tract Soc. is credited $20
as grants for 1839. this appears from their
letters & printed statements sent, though
believe your letters have not mentioned o
grant of $1000 — If not right it can be m
so. The balance due that Society is Rs 2722 but
we shall soon expend it, and be ashore without
other grants. —

I have deducted from the expen
for Bibles Rs 300 —; and charged to your Ac
as rec from the Philadelphia Bible Society Fem
that Society having informed us that $150.
had been paid over to the Treasury by them.

It has been especially applied to the printing of
Hindostanee—

I have credited the order which I gave
Mr. Todd, and yours on Mr Morton, and the amt
of two orders sent by me Overland in favor
of Mrs Margaret Hall for Rs 3,500 & Rs 500 – or
Rs 4000. If those orders have not been rec'd, and
paid you will much oblige me by paying the
amt $2,000 to Mrs Hall for money rec'd here,
on account of the legacy of J. W. Dare Esq. to her.
There is also a small order in favor of Rev. A. C.
Hall.— The amount of Invoice by the Augustus
& Nereus is credited.— and has been charged
principally to the Printing Establishment. The
Jaffna Mission, however, took a part of the paper,
and all the Ink sent by the latter. The charge
of Stock included in these to the Press amounting to Rs 11,000 of which a great part is on hand
has swallowed most of the proceeds of the Establishment. There are also outstanding Bills to
some amount; so that what is actually realized & passed to your credit, as towards the
Instalments, is only Rs 2,490. The profits, however,
for the one & half year are, as near as I can
estimate, full one third of the Cost (or Rs 6000)
The Inventory of the whole Establishment, at its
nominal value, with Stock on hand, would
be at least Rs 40,000— I hope at the end of the
second year, that is the beginning of July, to
make out an accurate statement and Inventory of the whole.— There was an Inventory taken
at the end of the first year, and the Accounts have
[illegible]

been in a manner balanced, but the Writer
not being a thorough Accountant, they hav
required more of my time for the proper
adjustment than I have been able as yet to
give — All the Monies recd & paid out howe
pass through my hands; and I keep my own
account of these, so that I can judge, excep
in regard to the use of Stock, or to the prof
or loss. — I trust the Printer who is coming
will be able to render some _efficient_ aid
in this respect as well as in others —

At the beginning of the year there wa
on hand in Letters of Credit £2450 — and I hav
since recd Notice of £6,500 more that is of

Nov 15. 1838 — £1000.
Oct. 9. " — 1000
Jany 30 1839 — 1500.
May 15. " — 1000.
July " — 1000.
Sept " — 1000.
} £6500 —

Making in all £8950 — and as appears in the
Accounts, and according to Memo forwarde
overland I have drawn in all for the year £
which is £615 over credit received — Havi
now paid for the Press, except that we ma
expend and so refund the amt taken from
the funds of the Bible Society, our drafts for
this Mission will be less — I endeavor to
keep always within the limits of the credit
made known, but letters are sometimes del
while the wants of the Missions do not know
delay, and I feel obliged (within limits) to extend
bounds; but you must please direct whether in
any case I shall do so or not.

I do not know whether we may expect other letters of credit soon; and am afraid from your last that there will be new embarrassments, but as I am in a few days to leave for Ceylon, and must make some provision for the demand for funds while I may be absent, I shall be obliged to draw soon for perhaps £1,000 in addition to the £615 surplus mentioned above, and the Orders which I have sent to America. — The loss on Exchange has been great the last year, and the greater because our bills are at so long a date, as well as American — The prospect is more favorable I think for the coming year. —

I have added an abstract of the Acct of the Bible & Tract Societies with yours —; and sent them a somewhat fuller account, especially to the Tract — Society; — which I hope will be satisfactory.

Be good enough to send us (according to a request made by the Overland Mail) when opportunity offers to Madras direct from 500 to 1000 Reams Sup. Printing Demy, and a suitable quantity of Ink for the same — and please excuse this hasty though not very short letter, and believe me —

Yours very sincerely,

for, I have drawn on you in favor of Mrs Hall for $2,000 — & in favor of J. N. Richards Esq for $1133 — in part for passage of Mr Meigs & family. It did not occur to me that the bills in favor of Mrs Hall should be at 30 days sight, but they are sent, to your care, & you can arrange the matter so as not to be put to inconvenience — by mentioning the time of payment on sending them.

I have sent by the Overland to Mr Symmons for 200 Reams Paper & some Skeins & Ink. He may perhaps forward you the Bill for payment in due course.

My dear Mr Hill,

I have just drawn on Messrs Baring Brothers & Co two Bills at 6 Mos for £500 each — to provide for the present wants of the Mission and to have something at command while I am absent at Jaffna. Perhaps this will hardly last till my return.

This makes £1553 more than [illegible] letters:

Very dear Sir,

On the 20th Dec. last I sent a statement of accounts. To this, if the Committee intended to send enough to pay for the Press, should be added about $3,000, but it remains as a debt to the Bible Society. The actual excess over the letters of credit of which notice had been received to the time the accounts were forwarded was £ 615 if the letter of credit for Sept. be included. I have since drawn

No 29	Dec. 31. 1839		Mr G. Vansomeren	£ 500	passed	Jan 20. 1840

" 32	"	"	Mr G. Vansomeren	" 500,	:	Mar. 21. "
				£ 2,000		

and have received notice of Letters of credit for Nov. 20th & Dec. 12th £1,000 each or £ 2,000 the same amount as bills drawn. The bills mentioned were all dated Dec. 31. 1839 because I had no blanks for this year. They were not ready before I left Jaffna. Shall hereafter draw on the new blanks.

Your letter of Dec. 13th has come by the last overland. I learn by the papers that the Govt. of Ceylon have made a grant of £ 150 to the Jaffna miss. but somewhat doubt the correctness of the report.

The accounts for 1839 were forwarded by the Rev B. C. Meigs who left on the 16th Jan in the Washington. Should he have arrived please give him my love.

With sincere chris. love

My dear Mr Hill,

Since writing by last overland, I have drawn on Meſsrs Baring, Brothers & Co. April 10 1840, Bill No 33 for £500. As no letters of credit were received by last overland, this makes us in advance of them £1.015. — I shall be obliged to draw again in course of two or three weeks. As the letters of credit mentioning that the bills should specify on what letter drawn, were first brought to us by Mr Hunt, and the bill now mentioned is the only one drawn for the new series, it is mentioned on that only what letter it is drawn against. Please excuse my haste and accept aſsurance of sincerest regards.

My dear Mr Hill,

I forward the enclosed by desire of Dr Ward — The original has been forwarded as I understand by the Overland — I should be glad to learn from time to time the Comparative rapidity of conveyance Overland — and also the expense — By the late regulations in England the postage there is considerably lessened — We are generally well — Mr Hurst has been ill a few days of fever but is better — The friends at Jaffna & Madura are generally well —

Please remember me with kindest regards to Mrs H —

Very dear Sir,

I had the pleasure of receiving yours of March 16th on the 10th of May in just two Mos and by the same Overland letters from New York to the 18th March — our letters seem longer in reaching you than yours in coming to us. — Your previous letter of Feby mentioning Credit of £1000 for Feby or came at the same time. I had waited for that, though in want of funds so as if possible to draw only on the letters of which No[illegible] is received — that is beginning with the letter of Dec. — I have since drawn the Amt as by the accompanying memorandum and shall soon be obliged to draw again — I hope the next Overland will bring further Credits. — As it is, beginning with that of Dec — and drawing only on the letters recd there is £1615 — of past Bills, over those recd, concerning which I wrote fully to Dr Anderson and yourself in March. — The

Very dear Sir,

The Overland goes tomorrow, & as I have occasion to write Mr. Lymm, I enclose a line for yourself. We have made out an Order for Paper, Ink &c. for the Press which, if executed, will require £250 probably — According to a suggestion of yours, I have written to Mr. Lymm that the Bills may be sent to you for liquidation (of course forwarding us a duplicate with the articles) unless he should prefer an English Bill, at Colombo, as he rather intimated. His proposition was, for us to pay *money* for him in Colombo, and charge the Exchange; but I wrote him that I could not undertake that. If he wished to have Bills on England, sent to his Agents in Colombo, instead of himself in London it could be done. —

I saw a day or two since a copy of a letter from Mr. Dwight on behalf of the Madura Mission to Dr. Anderson dated April respecting the £1000 excess of their expenditure in 1838 over the allowance intimating that it was in part owing to the Jaffna & Madura Missions, that this excess took place. I have written Mr. Dwight, reminding him of the *facts* of the case, and wish you to understand that though he is *mistaken*, the lending of Rs. 5000 to the Jaffna Mission in 1837, does not at all affect the question "Why ~~have~~ they expended in 1838 £1000 more than

August 1835 —, and paid the expenses home
the latter, at the end of 1836. — My impress
was that the Rs 5,000 were considered princi
as an offset to these expenses. They were not
all directly for Madras, as we see only Rs 3
of the sum. But more or less, we had what
we needed for that year, from the Jaffna
Mission; and then, with 1838, when funds
were sent out to the South Indian Mission for
us also, we under the limitation of the whole
to $14,700, proposed for the common expens
of this Mission to take Rs 6000 — diminishing ou

schools, if support could not be obtained for them in the Country. Accordingly the Common Expenses of the Mission for 1838 & 1839 were only Rs 11050.1.3 or nearly Rs 1000 for the two years together less than the proposed dividend to us of Rs 6000 a year on the reduced system, — although the Madura Mission rec^d for 1839 according to the advanced rate of $16,300 to that Mission alone.

I do not see, therefore, as I have told Mr. Dwight, in what sense we, or the Jaffna Mission, are at all responsible for the £1000. He has mentioned that Mr. Meigs & myself were on the Council, in respect to it. But so far as I recollect, it was only to ascertain whether it was sent for 1837 or 1838; and so whether it implied any grant from the Bible or Tract Society or included it as a remittance — The appropriation of this £1000 was a Mission concern, and I understood that it had then been made, and was not to be referred to the Delegation for advice. We were afterwards informed that there was a remittance of $1500 from the Tract Soc.; and had a part of the £1000 (to this amt) been expended, according to their rules, it would, I suppose, have been approved. As it was (as stated by me in a letter to Dr Anderson dated in March last) it appears to me the Mission had two apologies one that the whole apparently on hand was not so in reality, it being to the amt of $2,100, due to the younger Brethren on account of $300 given to each of the seven for building, which had not been expended; and another that they did not clearly understand the rule, that all monies on hand were to be reckoned the same as new remittances, or to be charged the allowances. When they made the appropriation for building &c the Mission did not know the rule; but it was known very soon after.

I mention these things because there ma seem to be a discrepancy between my letter to D of March last, and Mr Dwight's of April, and Mr Dwight by saying in the conclusion of hi letter that this Mission have had no part o what we have drawn in advance, may be th to imply that the other Missions are more i fault than they. I suppose the £1000 in questi is one reason for our being thus in advance.—

I did not intend the Bill No 37 until I rec'd it but the demands upon me required it and I had an offer which saved Rs 47 to draw for the present Overland. My dear Sir,

I had the pleasure of receiving by the last Overland your letter of March 31. containing Mr Ward's communication on the subject drawing the Bills against the letters of credit. I shall certainly endeavour to comply with his wishes. You will oblige me by kindly informing him, that up to the time when Messrs Baring Brothers & Co. wrote on the subject, they could not have recd a Bill from me with the desired addition as a consequence of Mr Ward's having added the clause alluded to at the bottom of the letters of credit, because I recd none with that clause until Feby of this year by Mr Hunt. I had notice by the Overland some Mos before of the letters being drawn, but as they were sent by Mr Hunt, and kept by him until we met, I did not receive them, so as to draw any bills until my return here the middle of March last — of course had I known that it was necessary to be particular, I should have been aware that the Bills drawn should specify on what letters they were drawn But we are not in the situation of Merchants who could not otherwise dispose of their Bills. in every bill but one, concerning which when I drew it I was not certain about the letter of credit against which it should be put. But this has been done only by leaving the balance of £1,615 (which was surplus in March last) and entering all the Bills drawn since on the letters of credit from Dec. 12, 1839. The Account of these is as follows —

Letters.		Bills

Except this Bill all have been entered as drawn against the above letters — and these are all the Bills drawn by me of date later than the time of receiving the intimation of Mr. Ward's wishes. Had the letters come a little earlier, I could have had our blanks prepared exactly as he has directed; but having now a quantity of blanks prepared I cannot well throw them aside; and I suppose the clause mentioned is sufficient. — The great object of desire with me is, to have the arrearages brought up that we may "begin fair" and to have a clear understanding of my limits, and whether in case of any unforeseen contingency making it necessary to exceed, it is to be done by borrowing here, or by over drawing on England. — If this cannot be done, I shall wish, if possible, that the letters of credit be sent to each Mission separately or at any rate, for each, and be responsible only for our own Mission. I have of course no control over

the expenses of the other Missions, and not
pay their drafts on me, it would be very

I enclose an Order from Mr. Hunt for various articles needed in the Printing Establishment which I hope it may be convenient to forward by some ship direct to Madras as the expense and delay is so great in any other way — The last day of sending by this Mail — considered safe — is Monday and this is Saturday. I hope to write a few lines on Monday but send this to-day with a letter to the Sec. of the Rel. Tract Soc London which I am closing to day as more safe than to wait — I remain

Very Dear Sir,

I had the pleasure of receiving by the last verland notice of a Letter of Credit, dated Apl. 29. 1840, for £1,500. In consequence of the demands of the Miſsions, & it being a favorable time for negociating bills on England, I have since then paſsed bills on this ~~credit~~ letter to the amt. of £1,400, or 100 leſs than the amount of the letter. This leaves the state of the Acct. of course nearly as before. I shall not have occasion to draw again for more than a month - probably six weeks. I mentioned in a letter last month that the reason of the Bills of the last year, not specifying what letter of credit they were drawn against was that I did not receive the letters requiring this until Mr. Hunt's arrival.

I remain, Dear Sir,

Yours truly

Very Dear Sir,

Since I last wrote I have had the pleasure of
iving your favors of May & June, & the duplicate of the former. In
sequence of leaving Madras, & it being the most favorable season of the
for sales of bills, I disposed of bills on the letters of credit for May
& June 6. 1840, to the amount of £2,000. This will cover the greater part
expenses of the Missions for the remaining part of the year.
mmencing with the letters of credit as before mentioned, it leaves of
of which advice has been received, the letter of June 17. 1840 undrawn.
ve not the books by me to ascertain how much it places us in advance
our account, but it is I think about £500. In answer to your
iry as to the difference between bills at 6 mos. & 3 mos. st. it will
an average about 2 p.c. – the difference has sometimes been consid-
ly greater. I have information from Calcutta that Rs. 200 has been paid
Agents there on the order on Mr. Morton.

The connexion of the Rev. Mr. Muller with the Church Mis-
nary Society has been resumed, so that the German mission in Tinne-

My dear Mr Hill,

I had the pleasure by the last Overland, Oct. 18. of receiving your favor of Aug. 15. making mention of a letter of a letter of July 31. and of Letters of Credit of £1000 each at 3 Mo sight on those two dates, for which please accept my best thanks. The shorter date will much facilitate our sales. Am happy to say also that the market is better than it was; our Bills also have acquired favor — My last sale at 6 Mos was at 2/½ and I expect to obtain for those at 3 Mos — at least 2/. the Rupee — or what you may understand, better a Rupee for 2/ — I have not drawn any thing since writing you on my way to this place; but shall probably be obliged to draw for money to close the year £500. or more. The whole amount drawn this year is £8,400 — and I think 500 or 600 more will put us in funds to close the year and perhaps more — If I draw above that it will be on account of a favorable offer and to provide for the beginning of next year. I have

written to a gentleman at Mysore, who has applied, that if he will take at 1/11¾ the Bills at 3 Ms. he may have £1,000, & he may perhaps accept the offer. I have previously mentioned that the Rev. Mr. Müller has been restored to his connexion with the Church Miss. Soc. & consequently I suppose the donation from the German F. M. Soc. is not to be paid over to him. Indeed I believe the conditions specified in their vote would themselves prevent it.

I feel for myself extremely obliged by your kindness in obtaining letters of credit so as to prevent the necessity of my anticipating them in my Drafts. We are now in that respect above board, being on the whole account & reckoning all of which Notice has been rec'd about £1500 in funds now, beginning where we did in drawing on the letters. Very dear Sir,

I have written at different mes mentioning the Bills drawn on the Letters Credit of which Notice has been received, and ope my communications have come to hand — ave now to mention that on the 28th of Nov. I rew for £1000 — at 6 Mo — on the Letter of June 17. 1840 nd have given advice of the same this day to Messrs Barings — as the Bill will be sent by the resent Overland. It was drawn after the last verland left — The sale of this Bill was better than ny preceding — being nearly 300 Rupees better han that of Oct. 9. and nearly 400 better than Messrs Arbuthnot & Co. would give. — This finishes the Letters t 6 Mo. I have recd Notice of two Letters July 31st nd August 15th of £1000 each at 3 Mo — These I hall be able to sell at ½d in the Rupee or 2 p Ct advance l than at 6 Mo — and perhaps better than that.

The whole amount drawn this year, for all the Missions, and on Account of the Bible & Tract Soc. also, is £9,400 — of which the avails of £700 or £800 probably will be on hand to commence the year with, but not having the Accounts all here, I cannot tell exactly. — The Madura Mission will be, I believe, a little in debt, and possibly the Jaffna though not I suppose if they receive for the salary of Mr. & Mrs. Cope who were transferred from Madura to that Mission. — My being at Bangalore will, I am afraid, delay the making out of the Accounts for a Month, or so, beyond the proper time, and also perhaps prevent a Delegate going from Madras Mission to the meeting in Madura in Feb. If however Dr. Scudder cannot go and there is any urgent necessity for our Delegate being present, I shall leave

To Henry Hill Esq

Very dear Sir,

On arriving here from Bangalore on the 12th Inst. I had the pleasure of receiving your letters with Notice of credits obtained in August & October. You mention, after intimating an intention to obtain a letter of credit for £1500 once in two Months beginning with Nov. that you hope that the balance of Rs 1625 formerly overdrawn may be reported to Messrs Baring Brothers & Co. as included in some of these letters. That sum was, however, drawn at 6 Mo. sight and I have now no letters undrawn except at 3 Mo. It will, perhaps, as the Bills have been paid answer the purpose equally well to have it considered so far as it is proper it should be in future remittances. I think, however, except in the case of the Madura Mission which, under rather peculiar circumstances did overrun the allowance, though the drafts for that year did exceed the letters actually received, they did not much overrun the allowances to the three Missions.

I have now on hand, undrawn besides £1000 drawn to day, of which a Memo is annexed, and most of the proceeds of £480 also mentioned £1134.8.6 that is the balance of the three letters of which I have received Notice for July Aug. & Oct. of 1000 each.

I think if the 1625 is not deducted by these credits a letter once in two months for £1500 will meet our wants according

214 to the present rate of allowance, but if that
were now deducted, I should have nothin
on hand, but what has been rec^d for the Bills
lately sold, and in case of a delay in the m
and of failing to receive the letters we migh
be pretty embarrassed. It is also undesi
to be obliged to sell Bills to meet pressing d
mands, whether a favorable offer is made
not. By taking a little time, and watching
market, much better sales are made than
be usually at a few days notice.—

I regret accordingly that my absence at Bangalore delays so long our Annual accounts. It is my intention to have them ready soon; and were I not occupied in preparing the Annual Report of the Madras Tract & Book Society, and getting up arrears of other business, which has fallen behind in my absence, I might get all ready to send by Mr. Tracy. Should he be delayed a few days longer than is expected I may still do so — I remain very dear

By the "Washington," which left yesterday, I have sent the Acct. in full with the Board, and the Bible & Tract Societies. It seems hardly necessary to send them in Duplicate by the Overland going as they do direct but I thought it well to forward the above. The Balance due is money on hand excepting Rs. 2618 overdrawn by the Madura Mission. It was necessary to have money in advance at the beginning of the year to meet the wants of the Madura & Ceylon Missions — as the former drew the first two Mos. of the year for Rs. 10,000 and the latter 8,000 — The Bills drawn on the Barings in 1840 cover all the letters of Credit at 6 Mos. and no more. We begin the year with those at 3 Mos. sight, which sell much more readily. They bring us now a rupee for 2/- — and may perhaps be better than that.

You will notice a sum paid for Mr. Perkins. This was for Persian books sent here by a Missy. in Agra. You will perhaps charge it to the Nestorian Mission. The money taken from the B. Soc. in 1838 toward the Press is refunded that Soc. and charged to you which finishes the account for the Print. Esty. there being now

In course of the present year, I trust the Press will have paid for itself. The last year it has more than supported the Mission if the profits were reckoned for that purpose. Mr. Hunts Salary (of wife & child) is charged to the Establishment — The Stock on hand is more valuable now than at the beginning of the year. I have paid about Rs 250 — for Rev. I. Roey towards his passage on the Washington (Rs 254.11) is the Account but there may be a little over allowance for expenses. He will settle with you for the amount. The whole passage money was Rs 3000. of which is reckoned to the Roeys 1500. — Miss Browne 700. and two children of Dr Scudder (boys) 800.

I have written to Mr. Symme authorising him to send his account of Postage from time to time with his Bills of Stock to you for payment forwarding me a duplicate that I may arrange the acct here

While writing I have the pleasure of receiving yours of Jany 1. giving Notice of a letter of Credit of that date £1500 — I have drawn since I last wrote two Bills for 400 & 300 or £700 — The account now stands

My Dear Mr Hill

Since last overland I have rawn bills on England to amount of £955. This overs the letters of Credit to Oct. 7. 1840. except £30 nd leaves to be drawn of those of which notice has been eceived Letter of Nov. 18th £1500 and Jany 1. 1841. £1500.

I mentioned in my last having paid Rev. J. Tracy Rs. 254.11 wards his passage to America, which is entered to your ccount. He gave me a receipt for $116.43 but the oney was paid in Rupees as above. I hope he ll have had a prosperous passage home and find health improved. Miss Brown and two Masters udders accompanied him and his family.

With kindest regards to Mrs. H. & to the Brer. the Missn. House including Mr Head with whom think I have some acquaintance I remain &c.

To Henry Hill, Esq.

Very dear Sir,

Since my last I have drawn on your agents to the amt. of £.1500 — the full of the letter of credit for Nov. 18. 1840. And having that of Jany. only, for the same sum, undrawn; that is of the letters mentioned, hitherto advised.

The reasons of my drawing the whole of this atonce were a favorable opportunity for selling, the want of in Jaffna of about 10,000 Rs. to transmit by Negapatam, so as to prevent loss, if they can find an opportunity, and the apprehension (which has had some weight) of war between England & America. Our bills would immediately fall or perhaps be unsaleable in such an event, tho' drawn on letters of credit, as there would be fear of Baring Brothers & Co. failing from their large connection with America.

Yours &c.

Henry Hill Esq

Very dear Sir,

I enclose the Mission Accounts for the last year, the making up of which until this time has been delayed by my absence at Bangalore. — They do not, I trust, need much explanation. I have credited the Bible Soc & charged you with the funds borrowed from that Society in 1838 to pay two instalments on the Press. — This completes the payment for the Printing Establishment, including the Rs 3000 for the stock first bought with it, which made the whole sum Rs 18000 — the remainder of the stock bought from the Church Mission, and all the invoices since from America & England, have been charged the Establishment, and paid for from its proceeds. — There have been charged the Board the sum of Rs 18000 abovementioned and credited, in the Accounts of the last, and present year Rs 10,615. 9. 8. — There consequently remains the sum of Rs 7,384 - 6. 4. to be reimbursed the treasurer, and then the Establishment will be clear, as to the Board also. This will probably be done the present year, unless we should

find it necessary to increase our stock, which
I believe we shall not — We have at present
much more on hand than we had at the
commencement of last year, having re-
ceived the two Invoices from England
credited to you as paid to Mr. Symm amou
ting to Rs 4370 2–4– of which the latter
arrived in January of the present year. I
have not had notice of your having paid the
bill of what was sent by the "Lady Flora", but
suppose you have, & so have entered it.

The Bill sent by Mr. Hunt,
or which you gave him for expenses is credited
you, and the expenses incurred by him charged
His salary is charged to the Establishment, but
his labors are not wholly confined to the Pr

The Bills drawn by me ac
cording to advice forwarded, include to th
end of the year all the letters of credit
at 6 Mos. sight & no others.

I have paid by request of
Rev. J. Perkins, to a Missionary in Agra,
Rs 36 — 12. for Persian books, sent him from

that place to Persia.—— You will perhaps charge it to the Nestorian Mission. I shall also pay the balance of the Rd Mr Tracy's passage Rs , concerning which he will arrange with you—— the passage of Miss Brown Rs 500, I charge, of course, to the Jaffna – Mission; and that of Dr Scudder's two sons Rs 800 to our own Mission.——

You will be glad to notice that the Press the last year has supported us & our operations, or that the profits from it have exceeded all the expenses of the Mission. Of course this is not allowing for wear & tear, & interest of the purchase money of the Establishment; but the type, Stock &c are on the whole in a better state than they were at the beginning of the year, so that, with a common blessing, the Establishment will soon entirely pay for itself which is no small consideration in these "hard times."——

Very dear Sir

I had the pleasure by the last Overland to receive your favors of May & June — the last arrived two days less than 2 Mo.

Am glad to know that you have obtained a letter of the overplus of the 6 Mo. drafts — It was right £1525 — I have drawn since I last wrote Bill No 64 J. Vantomreen £429.4.6 — on Letter of March 3. 1841 £400 — and £29.4,6 the balance of Letter July 31. 1840 — I have therefore, undrawn the remainder of Letter March 3d ——— 1000.
Letter May 29. ——— 1500 — 2500

The drafts both from Jaffna & Madras have been heavy thus far this year — but will be less I trust for the remainder. They are building in Jaffna which makes their expenses greater. Provision is to be made for passage to Am— of Mr. Hoisington & family, who must probably proceed to Calcutta to get a vessel. The "New Albion" Ice ship — is expected in October but judging from the past there is no reason to expect advantage from it. These ships might bring us packages &c; and I should think Mr. Tudor would have no objection to your knowing when they leave. As they are now likely to come here regularly two or three times a year it may be well to have some help from them if possible. The ice concern does very well here. Notwithstanding the heat the wastage is less than at Calcutta, and ice is carried near 100 miles into the Country. Ice creams iced water &c are the order of the day.

further dividends are to be made. It was und

Madras Sept. 21. 1841.

My dear Mr. Hill,

I have drawn the present month the balance which was due on the Letter of Credit given Jan 1. 1841. (that for Mar. 3d being previously drawn) and on that of May. 29. £300, leaving on that £1200, which is all that remains in my hands. I trust I shall not be obliged in order to meet the actual expenses to draw more than the £1200. remaining, as that will make £9,000 for the year; but Bills must always be sold in Nov. or Dec. to meet the expenses at the opening of the year. From this time until the end of the year the sale of the ~~year~~ bills is usually more difficult than at other seasons which made it *expedient* for me to embrace a favorable opportunity of selling this month more than is *immediately* wanted. I shall endeavor to send an Estimate of the Expenses of our Mission as you mention. In the allowance for 1842, to Jaffna & Madura Miss.s they were supposed to charge their relative standing probably as for this year the former is, I believe 4,350 & the latter 3500, but in 1842, is to be, the former 3,850 & the latter 4185. But as Mr Poor is gone to Jaffna, there are now the same number of missionaries in each mission & I am not aware of other causes for putting ~~for putting~~ the expenses of Madura above those of Jaffna.

Henry Hill Esq
Very dear Sir,

I have had the privilege of receiving by the Overland yesterday your acceptable favors of the 6th & 14th Augt and notice that there is a small balance to be drawn for on Messrs Baring Brothers & Co. I supposed that although you obtain letters of Credit you did not pay for them or settle the Accounts, except for Bills actually drawn — and after their being actually paid; but if not so, and the letters are charged, it is important that they be not in advance of what is needed, and that the exact sums specified be drawn for; which I was not aware of.

Whether it will be necessary to send us Rs 90,000 or £9000 pr ~~Annum or~~ £750 pr mensem at present depends somewhat on the amount to be paid for the Bible & Tract Societies, and the extent of the reinforcement at Jaffna. I subjoin an Estimate of the expenses of our Mission by which it will be seen that we shall probably need about £400. If to this the allowances of about £5,000 to the other Missions be added and say to all the Missions from the Bible Soc. $5,000 and from the Tract Soc. the same the whole would considerable overrun the amount of £9000 deducting payments for us ~~for~~ in England & America. This makes the whole amount sold this year £8,699.16.0 — and it leaves in my hands reckoning the Letters of Credit down to Aug 12. £1,800 — To meet the expenses of the Missions at the beginning of the year approaching, I shall be obliged to sell a part, but not all the Bills to be drawn on these letters.

By the last mail I answered your inquiry as to the amt likely to be needed next year, and also forwarded the Estimates for this Mission. Our Expenses the present year have been greater than usual, on account of Dr. S. being on the Hills, which with such a family is quite expensive, and ~~because~~, in consequence of the preaching Bungalow erected at Chintadrepettah being rebuilt, also some out buildings, and the house repaired. The Bungalow being too slightly built was in a falling state — the outbuildings fell down in a storm — and the repairs on the house had become quite necessary to save it from damage. My Dear Mr. Hill,

l complete all the letters of credit of which I have had notice,
t is, down to 12 Aug. 1841. The overland which has been
y expected for some days is not yet in, or I might have
ther letter of credit, which I am anxiously expecting. Should
ot arrive, & should we have to make provision for the passage to
erica or England of Dr. S. & family, I should within five or six
ks be obliged to borrow money for our expenses. Mr. Dwight
te me the other day that they should need for some months to
e Rs. 4000 a month – & the Ceylon mission draw upon me for
t the same, which makes £800 pr mensum, aside from our
mission. This also calls for funds, not only because of Dr.
dder's journeying & of his prospective voyaging, but because
is not as he was, employed in part at the expense of the
ble & Tract Societies. The Press has also for various reasons
ght in less the last year than the one preceding – & may do
the present: so that we shall probably need for the Missions,
they now are, nearly £900 a month, including what is expen-
l for Bible & Tract Societies. We must do all we can to
nomise, but if the Comt. do not limit the missions, they will
w on me for the amount they need. Mr. Hunt is very anxious

better to send by way of England than not send at all.

My dear Mr Hill,

I beg herewith to send the Accounts for the year past which I hope may be intelligible & satisfactory. I shall forward a Copy by the next Overland which may probably reach you before this which goes by Ship, care of Mr Hoisington. I shall therefore, say but little in this by way of explanation, of which much I trust is not necessary.—

Our expenses as a Mission exceed as you will perceive about 6[illegible] the profits from the Press — this is owing in part to their being increased by Dr Scudder's visit to the Hills — which has not only been an additional expense but has prevented his labouring as before on Account of the Bible & Tract Societies — and in part to the proceeds of the Press being somewhat less the past year than the one preceding. the amount credited to Jaffna is what Dr Ward has given "deducting various credits" and that to Madura the proceeds of their allowance of £350 — We have on hand nearly the whole sum granted the past year by the Bible Soc. but are now printing an edition of the entire

My dear Mr. Hill,

Herewith is our Account for the last year. A Copy was also sent by Mr Hoisington, who will forward it either by way of St. Helena, or from England; but as that may be delayed should it not miscarry I think it best to send this by Overland.

You will perceive that our expenses have, contrary to the expectation of the Com. exceeded our receipts from the Press by £100 — This has arisen from the smaller amount of profits realised, and expenses incurred. In the former there will be some fluctuation according to circumstances. We have not at any time calculated on a nett profit above about Rs 6000 or 7000 — the latter has resulted from the expenses of D. S. & family to the Hills and in their residence there, with the passage of two sons to America & outfit Rs 1181 — and from his illness preventing his being so much occupied for the Bible & Tract Societies, to whom a considerable part of his salary was before charged. We have also in part for the accommodation of Mr. Hoisington & family & partly, as a place for public Worship, continued to pay rent for the house at Royapooram. This we might have charged in part, for several Months to the Jaffna Mission — or formerly we might have done for the rent of house for Mr. Meigs & family — but as it is one interest it all comes into our Account, as also all the postage, of which a portion is for each of the Missions. There have also been some repairs at Chintadrepettah — The bungalow Church, being ready to fall, has been rebuilt and a front added — the house has been repaired and the outhouse which fell down in a storm replaced. — This expense will not be repeated the coming year but there will be that of Dr S. journey from the Hills, and probably passage

house for himself & family — and expenses whic
we ought to bear connected with another Mission
family coming to our aid. There is also due for lo
for Church at Royapooram Rs 765 — which I hope th
Com. will be able to allow. We cannot, therefore
say, as we wish we could, that the Press will su
port the Mission this year; but that we shall wan
besides expected profits, about £300, at least

My dear Mr Hill,

June 2. 1842.
A.. 10.

I have to day had the pleasure of receiving Notice of a letter of Credit of Dec. 10. for £1500 This is very timely, as owing to paying passages of Mr. Hoisington to England, and of Dr Scudder to America, with their families, in addition to the usual expenses of all the Missions — the whole of the previous letters have been drawn. The amt drawn by the present Overland is £950. which completes the letter of Oct. 22. 1841 —

In my Accts sent by the last Overland and by Mr Hoisington I entered the Postage paid by Mr Symme Rs 168. 11. 4. It should a have been I find Rs 248. 8 — as you paid him I suppose at one time £14. 6. 2 and at another £10. 10. 6 — I have therefore credited to your Acct for the present year the additional Rs 79. 12. 8 to make up the deficiency. I have also credited to your

Account the amt" of $12.26 as paid by you to Mr. Tracy for Dr Scudder's children—

The passage of Dr S. & family is engaged on the "Washington". We were obliged to pay the Ship extra for coming here as it was necessary for Dr S. to leave soon and it would have cost at least as much to go with his family to Calcutta as the extra agreed to be paid. The Agents in Cal. who are also your Agents Messrs Adam Skene Smith & Co. demanded Rs 4500 but we agreed to give 4,000 only with which I suppose they will be satisfied. This sum has been sent as arranged with the Agents to Calcutta. This was in a Govt Bill at 60 days, on which we have a discount of 2½ p Ct which will lessen the price Rs 120—

We are grieved at being obliged to spend so much money in this way and especially while the funds of the Board are so low but Dr S's life is worth, and the prospect of lengthening out his services in India is such as to make a trial so expensive proper in the view of all now acquainted with the subject. If the Lord pleases to spare him our dear Brother will be very useful at home I remain yrs. affecty

Henry Hill Esq. &c.

Madras April 23. 1842.

My dear Mr Hill,

By the last Overland I had the pleasure of receiving yours of Sept containing a list of grants from the Bible and Tract Societies — with its enclosures.

I have drawn, since writing, Bills to the amount of £1231. 11. 4 on the Letter of Credit of Dec 10. 1841 for £1500 — leaving to be drawn £268. 8. 8 — which is all I have in my hands —. We feel some anxiety from the unpleasant nature of the accounts by the last mail — lest war should take place, between England & the U.S. which I am afraid would interrupt our receipt of funds in the present way, and perhaps any other form. It would be to these Missions — as I think also to both countries — an incalculable evil. May the good Lord avert such an awful calamity.

Mr Heyer has funds to the amt of some Rs 1500, or so which will answer his present purposes; but he will probably want ere long the $1000 — sent by the Soc for Messrs Müller & Schafer which was not paid over to them or taken by me from the funds of the Board. If it is at any time then to be taken, I shall I trust be duly favored with your instructions to that effect. — I have paid for D S. & family passage to Am. Rs 2000, less a discount on the money sent from them to Calcutta of Rs 12 —; but I advanced

Capt Taylor of the "Washington", for stores for o
passage, Rs 250 which I suppose Mr Huffnag
will return to me. They asked Rs 1500 for the
Ship to call here; but my offer was 1000 onl

My dear Mr Hill

Since my last I have drawn the remainder of the letter of credit of Dec. last so that I have now none on hand on which to draw. The Overland this month leaves earlier by 8 or 9 days than it has for some Mos. past and the despatches from England by [illegible] have arrived unusually before [illegible] mail which goes are not yet [illegible]. In this arrival I hope to get another letter — If I do not we shall be in trouble as the drafts are now becoming large from Jaffna being increased by the addition to their number. There is nothing said, as I now learn, about an increase in the appropriation to that Mission, though I suppose there must be of course. We endeavor to use all possible economy. I remain

My Dear Mr. Hill

By the last Overland I had the pleasure of receiving your letter enclosing of [illegible] D.f. [illegible] giving notice of your having obtained a letter of credit for £1500 Feb. 5. Of this I have drawn in Bills which go by this Overland £1000. The sale of bills is now quite uncertain except at a discount. The Church mission & London mission both advertised for bills the beginning of this month in all to the amount of nearly £[illegible]000, but they have not I understand succeeded very well in their sales. [illegible] as does [illegible] of [illegible] at [illegible] the sums they need at the time usually the Overland is going out. In this way I think [illegible] about one or two of those who receive at stated times of two or three months, but it [illegible] makes it necessary for me to draw more than we need for the month & more [illegible] leaves us rather short of funds. I have now an offer for £100 more to go by express three days hence at an advance of [illegible]%. The sales of the month which are said to be better [illegible] those of the Church Mission. As there may not be a sale by the next Overland I may draw this £100 also.

I gave Mr. Harrington a Bill for £50. to sell in England, which if he has not passed and should not will remain to be drawn on a former Letter. He will perhaps inform me.

I have mentioned before that ships bringing ice to Madras are expected to come regularly about twice a year from Boston and that Mr. Tudor on application would probably give Notice before the sailing of the ships so that we might receive by them letters and pamphlets at least —

Madras Oct. 22 1842.

My dear Mr. Hill,

I was not aware that so many Periodicals were sent to us as somehow they do not come with any regularity and some on the List I think I have never seen. Nor did I know they were purchased for us. It will be best I think to stop the following —

Am. Almanac. Quarterly Register.
1 N.Y. Observer. Silliman's Journal.
Con. Com School Journal. 1 New York Evangelist.
Puritan.

and to send of those on the list 1 N.Y. Observer & 1 Evangelist, by way of England as My Observers are now sent me — that is to discontinue my Observer & Mr Hutchings Evangelist and to send those for the Mission through England, — direct from New York — I requested the Observer sent to me in this to secure any more early reception of it, and it comes pretty regularly — I will thank you at commencement to have a Memo made of what the expense has been in the price of the papers — and I will credit it to the Mission. — Beside these the Bib. Repository — Am. Eclectic — & Mercury may be sent and whatever periodicals which the publishers send without Cost to the Mission —

We are in much want of the Type Foundery ordered, and will thank you therefore when it is ready to have it sent without waiting for a direct opportunity to Madras. — I have mentioned that ships with ice will probably come regularly about twice a year, and that on application to Mr. Tudor who I understand sends it he would probably give information as to the time of leaving.

I take the liberty to enclose some letters for convenience and you will please charge the parties postage as you may see fit —

The following Bills on England have been passed by me since I last wrote,—

No. 119.	Oct 18. 1842	Messrs. M. Dunhill & Co.	£25. 0.

122.	" " "	Ibid	20. 0
123.	" 21. "	Mr. C. A. Johnston	300. 0

This leaves due or to be drawn on the Letter of June 9 — on which all these were drawn — £311. 8. 6 to be fi and the Letter mentioned in your yesterdays fav Bills have not been in demand the last two months and I have only drawn fast enough to meet calls f the Missions —

Very Dear Sir,

Since my last I have drawn the following bills _ No. 132 Jan. 21. 1843 Rev. W. Porter, 30.0.0

both on Letter of credit Aug. 3. 1842.
leaving to be drawn £470 on that Letter, & leaving entire the letter of Sept. 28. 1842. We are however rather short of funds & I should have sold the greater part or all of the remaining bills on the letter of Aug. 3d but the offers were not very favorable.

It was my intention to forward the Accounts of the Mission but the Press Bills were not made up in season. We are likely to come much short this year of the anticipated profits of the Press, owing to different causes.

My Dear Mr. Hill,

I beg herewith to send you our Accounts for the last year. As I dispatch them in some haste to be ready for the Steamer today, which will save some postage, I have not time to enter much into explanations, and I trust they will be hardly necessary to the right understanding of the items. I must write Dr. Anderson more at large respecting the Amount.

You will perceive that the Expense of Dr. Scudder going home Rupees 4,079 – Coming from the Hills 462 Mr. Hutchings coming from Jaffna 201 – and of his Assistants 744 – besides some extra expenses to the Mission from Rent conveyance &c. (a great part of which was not anticipated) have increased our expenditures beyond what was anticipated. Something perhaps has been saved to the Ceylon Mission, who have paid Mr. Hutchings Salary but no extra allowances.

It would not, however have been of much importance in the Settling of the Accounts if the Press had yielded the profits expected to reduce the Amount of expenditure. From what was realized the two preceding years we thought it safe to calculate on about Rupees 6000 from this source; but after paying Mr. Hunt's Salary the Press is nominally though not really (reckoning some Bills on hand) in debt.–

I am not able to State all the reasons for this falling off. One is we have not had much work from the Madras Bible Society the last year, as the principal job in hand has been going on at the Vepery Press. I think I mentioned that the conductors of that Press, some two years ago made a proposal to take all the work of the Society at a very reduced rate, and in consequence our terms taken from the Church Mission were reduced and

the

the work divided between the two Presses. It has happened that a large Edition of the New Testament in Tamil which had been given to that Press the year before is almost the only printing the Society has had the last year — the funds not having been in a very good state.—

From other sources also there has been less profitable work than usual, as business has been rather stagnant, and we have declined some work which used to be done, as not quite consistent with a Mission Press, especially one conducted on Temperance principles. — So much for the income, or want of it.

On the other hand we have received some paper for the Dictionary and other Stock of various kinds to a greater extent than before, and have used less, so that there is an accumulation to some extent.—

We shall I hope, and trust, be able to make a better repor of the Press next year, though we must not look at profits to so as to injure its ~~ut~~ efficiency as a Missionary Establishment.

The price of the land for the Church at Royapooram has been charged in the Account.- Every thing else in relation to that Church, at least at present, we shall endeavour to provide for by specific contributions — principally in India.

There is charged Rupees 1502 which have been advanced the Revd C Nevius at the Neilgherries concerning which I have written at different ti

By these Bills, all the letters of Credit of which I have had advice, that is down to that dated May 27. 1843 — are exhausted except £175. on this last letter — I shall however in consequence of having sold some bills this month in anticipation of accounts of the Missions — the price offered being better by 2 p Ct than usual not have occasion to draw perhaps at all next month. I have paid this year on account of Mr. Nevins Rs 1841-9-10 — (Eighteen hundred & Forty One Rupees Nine Annas & ten pice) — He is about this time leaving the Hills for Bombay —

I cannot add further than to say that

My dear Mr. Hill,

After my letter of Oct. 23. was dispatched I drew on the same day a Bill on Messrs Baring Brothers & Co. for £420 — making in all £520 on the Letter of July 27 — the others being all drawn — Besides this I have not drawn and probably may not by the present mail.

Mr. Ward wishes me to request for him

"Am. Biblical Repository" (Rev. S. D. W. Ward)

and kindly order sent at my expense

"Am. Eclectic Review" and the New York Observer continued as now for both which I will thank you to pay & charge me — also for the "Mercury" and have it discontinued unless it has been paid for in advance either for me or Mr Hutchings, when it may be continued (one Copy) for the time paid. I cannot bear the expenses of the other periodical as my salary as a single man and keeping up an establishment for my children does not nearly meet my necessary expenses.

We are wanting for the Press various wood cuts such as were formerly sent to Ceylon and others — suitable to illustrate Natural history and use in printing school books, tracts, Pilgrims Progress, Dairymans Bible Stories &c if any publisher can furnish second hand or duplicates at a low rate. Will you kindly have inquiry made and we will send a more definite order if they can be had reasonably and forwarded by the Ice ships which will now I suppose come regularly. Accounts. There is little I trust needing any explanation. So far as I am aware all the items mentioned by you as having been paid are credited. The Ceylon Mission have only given me the balance of their Account with you — so that I do not know the particulars. As to Madura the whole allowance is charged to you and what you have paid for them according to Mr. Dwight's Acct is credited — I think you have paid for me, and perhaps the our Mission — for some things of which I have no account say Newspapers &c — Kindly continue to send me the Puritan — Observer — also the Eclectic Review and to Mr Ward the Biblical Repository as I think I previously mentioned — If any items are omitted or not properly entered you will be good to inform me. The amount paid to Mr Lyman for me and accounted for by him is I hope right to the time mentioned. I am not certain that the [illegible] been [illegible] by

of the Board who will have nothing to pay for them, but I propose to do something towards their support in England by drawing for them the usual allowance as tho' they were here, and adding something to that from the little property of their dear Mother. I suppose there will be no objection to the allowance being continued as you do not pay for their passage. If there be, will you kindly inform me. I wish them still to be considered as protegés of the Board and pray that they may become its Missionaries.

To Henry Hill Esq.

My dear Sir,

Since my last I have rec^d^ your letter of Augt 1. giving advice of a letter of Credit of July 31. 1844 for £1,500 —

I have drawn in the usual way for the following items,

N° 214 -	Oct 12. 1844 -	Mr Wm Dove ———	50-0-0	
215. 〃 —	14. 〃 —	Messrs M Dunkell & Co.	200.

218 〃 —	15. 〃 —	D^o^ ———	40.	
219 〃 —	16. 〃 —	D^o^ ———	30.	400-0-0
220 〃 —	17. 〃 —	Mr Daniel Henry Schuyoopl		37-10-0
221 〃 —	18. 〃 —	Major R. Thorpe ———		103-0-7½
222 〃 —	21. 〃 —	Major D H. Considine —		12-12-6
223 〃 —	〃 〃 —	Major H. Straith ———		200-0-0
224 〃 —	22. 〃 —	Mr J. L. Porter ———		30-0-0

Then finish the letter of Credit for March 27— and draw upon that of April 30— which is for £1000— the amount of £751—9—9 leaving on that to be drawn £248-10-3— and the subsequent letters of June 19— and July 31. for £1500 each— so that we are at present well supplied— We shall have however some heavy expenses in shipping the mission families here expecting to embark for America ———

Mr Crane & wife with their 5 Children and Mrs Dwight's 2 children and also Mr & Mrs Wyman have taken passage is still detained though it was expected she would be off several days ago. The Monsoon had seemed almost to fail but has appeared in earnest and with violence for the last 10 days. Two ships have been lost and the London packet parted one cable and drove in towards the shore. The weather now seems settling and the prospect is that they may be off in two or three days. Mr Wyman has been very low and the prospect was at one time that he would not be able to go on board, but he has since rallied and is more comfortable. It is very uncertain however, whether he will live to reach home. The Jaffna Mission have voted him leave to go — I have paid for Mr Byam & the children to St Helena Rs 3250 — and for Mr & Mrs Wyman to England 2000 — It would have been better had the contract for the Wymans been to St Helena only and conditionally in case of proceeding to London which it is very uncertain whether he will reach but just at the time of engaging the passage Mr W— was anxious & afraid of losing the opportunity and therefore requested Bro. Rand to call & see the Agent or the Capt which he did and closed the bargain for the whole passage ——

I am afraid I shall not be able to write any private letters by this Mail — Shall

you kindly inform such

My dear Mr. Hill,

Since my last I have drawn as usual—

No 231 Dec 11. 1844. Rev. R. Wyman 50.
232 " " N.M. Crane — 25.
233 " 20 " Major Smith — 150.
234 " 21 " S. B. Shawley — 81-19-7

These are all on the Letter of June 19— and leave due on that £399-12-5— The sum of £12-13-7 is due also on the Letter of April 30— and I have the Letter of July for £1500—

I have avoided drawing this month to any amount having a prospect of selling favorably in Jany.— and the difficulty of remitting money to Madras now on account of public drafts not being given has required me to have less at command. It puts them in to inconvenience at Madras but I trust the evil is only temporary.

payments for the year are reckoned
at this rate.* It is, therefore,
proper I think that Mr Crow

was the exchange I made and
this will entitle him if you
please to allow it to $9½ more
It need not affect the accounts
because they are in Rupees
and the difference occurs only
from the number allowed

We shall be much
obliged if you can kindly
make inquiries whether
our Agency in London may

several respects the charges

at the time to charges of Commis=

to Printing Paper &c. there is a
large drawback allowed on

the case of the Bible & Tract

I wrote about the drawback
which has never appeared

should think there are so many houses in New York & Boston with connexions in London it would be very easy. It is more important that there should be some one in whom you could confide than one whom we may know something of as the Bills are put to you direct for payment — Mr Robert of New York has a correspondent in London by the name of Samuel who has sometimes transmitted goods &c to us and seems a man of business but we know but little of him. If you think it well to make a change we trust it will not be difficult to find some one, but we would leave all with you to arrange.

My dear Mr Hill,

I enclose a Duplicate of an Order given Rev N. M. Crane on yourself and credited to account of the Board Rs 761-3-6. This is the amount due Mr. C— by the Madura and is charged by me to that Mission. To settle it I gave the credit as above — as you will see in the Annual Accounts — and the Order for $316 — In further examining the rate of exchange I have thought that instead of reckoning as I did the Pound Sterling at $4,80 — and the Rupee at 1/10½ (the present rate) I should in settling the accounts of the Bible & Tract Societies &c put the Pound Sterling at $5 — I do not know what the present rate may be with you but there is of course always some expense and may be loss in remitting funds for other Societies so that this perhaps will be fair,

No. 235	Jany 9	Rev M. Bowie	100 —
236	— 10	Mrs S. B. Shaw	41-12-8

243	Jany 24	Wm Waddell Esq	1,248-5-4
244	" "	Mr N. L. Dawes	10-0-0

These complete the Letter of Credit of June 19. 1844 — and leave of those for July 31 — and Sept 26 — only £1018-8-0; that is, there are drawn on the letter for July 31 — £1000, and on that of Sept 26 — £981-12-0 — I should not have drawn quite so largely now, but we were quite low down for funds, and I am expecting to leave for Jaffna x to be absent a few weeks and found it necessary to provide for all the services in my absence — I mentioned in my last that perhaps you would not need to send regularly $1500 every two Months — but I find on settling the Accounts (which would be sent by this Mail but for delay in getting memos from Jaffna & Madura) that there is more due on account of the Bible & Tract ~~Societies~~ than I had supposed, and that the demands

x probable funds

x having paid $230 passage money for the Crown Hymns &c — and not having favorable offers for Bills — Astounce to me thought I must let a bill of Arnold to take £1000 — they offered at a rate differing in that from more than 300 Rupees from what I sold for — this shows the loss we must sustain if all our business were done by an Agency House — it would be 3 or 4 p Ct on the whole amt sold — besides Commissions which they might or might not charge of the Mission at the commencement of the year are larger. As the Account stand and will be sent to you there is due from the Board more than Rs 250 — so that I shall probably be under the necessity of drawing nearly the amount or perhaps quite of $1500 once in two months —

Madras 8th Feby. 1845

My Dear Mr Hill

I have the pleasure to enclose our Annual Accounts which I hope will be found satisfactory. Being on the eve of leaving for Ceylon to be absent about two months many things claim my attention and as I wish the accounts to go by the next mail you will I hope excuse only a brief explanation of them.

You will observe that there is no credit on account of the Press and that the Salary of the Superintendant is charged in the Mission Account which has made that exceed somewhat the allowance. This is owing to the large expenses for the Foundry. By adding to these the Invoice by the Ashburton of type &c. and that by the "Duke of Roxburgh for £264-3-0 just received and not yet opened the Press is in fact in debt, as the Accounts stand more than Rs. 1500, but there are Bills due to cover the greater part of the amount, and what has been expended more than usual remains on hand in Stock & type. Our present labours, however, are more in the way of improving the printing than of bringing a profit to the Establishment.-

The Ceylon Mission has not drawn its allowance, but is credited $20000 instead of 24000 - which I think was the allowance of the Committee - and even this leaves that Mission a balance in our hands. The Madura Mission has taken the whole allowance and is about even in its Accounts if payments have not been made for it in Boston.

" I have credited if no letters have miscarried or escaped me all that you have mentioned as paid for us and charged the different Sums paid here by your Order. There is a small charge for Sheep Skins furnished to the Siam Mission. As they lately write that they may probably wish to obtain such supplies annually from Madras, should this method of paying for them be inconvenient to you, they will probably find some other way of furnishing us, or some one else at this place with the needed funds.

Our expenses have been as you will see, much as in former years. They are not lessened in the School or any other Department by Donations, because what has been given has been nearly all for building a set of School Rooms to accommodate the Female Boarding School at Royapooram. There is a small balance for School Rooms on hand, which will be appropriated with what more we may obtain to preparing suitable Room at Chintadripettah for the English Day School, and should more than enough for this purpose be obtained, we shall commence an erection on the Church compound at Royapooram for an English Day School there, which is much needed - The amount contributed for the School Rooms is of which Rs 730 have been expended on those at Royapooram leaving towards the erection of Chintadripettah. - The balance of 236 on the Church for completing the wall of the Compound has been met by other contributions - so that there is no charge to the Board. There is a loss on the "Aurora" for the year on account principally of the reading lessons for

Schools

Schools of about Rs. 400 but it is not brought into this years Account, as some B
remain unpaid and the balance may be further reduced by some donations for th
purpose – On Account of the loss incurred & the want of strength in our Mission to c
duct this publication it has been discontinued – It has been an instrument of real go
so far as I can judge –

With my Christian regards to all the Brethren at the Missionary

As none came by the last mail, we shall therefore soon be out unleſs another letter should be near. I mentioned at the end of the year in looking at the accounts that I thought one month might be paſsed without the allowance of £750, but I was not aware how much was due to the miſsions for the Bible & Tract Societies, nor how large the demands would be from the miſsions in the early part of the year. As a mail may miſs, it will be better to send letters even beforehand if poſsible than to have our credit come to a stand still. They will not be drawn except as needed.

My dear Mr Hill,

Since writing I have had the pleasure of receiving your favor with letter of credit of April 24. I have drawn only one Bill No 260 June 30 for £100 leaving £589.3.0 on Letter of Jan 30th. The reason of my not drawing more is the want of a suitable offer as to the rate of Exchange. I must *soon* sell the remainder of that letter & a part of the one above acknowleded, as we are nearly out of funds & the drafts especially at Madura are large.

I notice the payments made for postage & will credit them. Much of the postage charged to us is for Madura as we forward many of their letters & receive all their News-papers. But it does not so far as the postage is *public*, matter much to which mission it is charged, though we have many expenses of the kind.

Yours &c

14 "	266	Do	—	400-0-0

Of these 500 were on the letter of Credit of April 24 — leaving to be drawn on that letter £1000 — and the others on the letter of Jany 30 1845 completing that letter. Besides the 1000 to be drawn on the letter of April there are two returned Bills or cancelled, which you mentioned viz 1 Bill to Rev R Wymon for £50 and one to Rev N. M. Crosa for 25 for which the equivalents are to be drawn —

You mention having rec my letter of Feby 3 but do not say whether the Accounts accompanying were rec, though I take it for granted they were —

My dear Friend,

As suggested in my last we have aided the Rev. Mr. Day to the am^t of £100 to enable him to go to sea which was quite necessary. This has been done by a Bill on London — as an equivalent for which I enclose his Bill on the Hon. H. Lincoln for the same amount payable in London. It is drawn as was ours at 90 days — and of course will be payable some 15 or 20 days sooner as this must go to Boston for acceptance and both will probably reach London by the same mail. Should it, however, make any important difference in your accounts Mr. Lincoln will probably make it payable at the same time with mine, which will be no more than fair and there then be no loss. I do not enter either into my Accounts.

Henry Hill Esq.

Madras 30 Jany. 1846

My Dear Mr Hill,

I herewith send our Annual Accounts (and some Press Bills) They will I hope be intelligible. Our expenses are much as usual. We have been obliged to make some little provision for such Native Christians connected with us as are troubled by their friends for renouncing Caste and to have a little place of refuge for them. At Chintadrepettah we have procured land enough to build about ten small houses & have erected two already upon it. Something similar must be done at Royapooram. Our Girls Boarding School is becoming a little more expensive - also our Native Free Schools which might be greatly enlarged, and the Assistants Department.

You will perceive that the proceeds of the Press have been such the last year that the expenses of the Mission, though large in some respects, have been considerably within the allowance - The Ceylon Mission has done better still in regard to expenditure having drawn less than half what was allowed. This is owing in part to there being a balance in favour of the Mission from the preceding year - Its Schools have also had some assistance from Government - The Madura Mission has expended its full allowance.

According to the direction of the Prud Com. we have now transferred all our Accounts with the Bible & Tract Societies to the Board. Taking the two Societies together there is but little gain or loss by the transfer. We have been necessarily going on in expending on Account of the Tract Society, though without funds as we expected when the printing of the larger books - as "Line upon Line" was commenced that there would be a grant to us the last year. The balance due from the Society, which is of some Amount, will perhaps be considered in future grants through the Board. The balance due the Bible Society though credited in the Accounts with the Board will all be absorbed by the printing of the Tamil New Testament

now

now in the Press & binding the remaining part of the entire Bible.

The Bills on London were sold the last year at a bette rate on the whole than at any time before having been little more than 1/10 to the Rupee - They are now nearly five per Cent less than they were being 1/11¼ and may be further reduced - I have credited a Bill drawn by me on yourself in favour of J. L. Tim Esqre and the different Invoices received. The orders sent me to be paid are charged as usual, and I am not aware of any omission on eith side. The Postage Account of Mr Symm should no doubt have been in part for Madura, but I could not ascertain the proportion and it is of little consequence unless it be a private expense.

I forward herewith Estimates for the year embracing also w is needed for Bibles or Tracts. We might have added an Estimate for Printing the Tamil & English Dictionary and have stated how much w might (if allowed to commence it) accomplish of the work this year, but it is unnecessary without some prospect of a beginning being made. We are prepared to commence the work whenever the Com mittee may authorize it, and unless the prospect of Mr Hutching coming out is brightening we think that it would be well to commence without delay, lest instead of becoming stronger for such an undertaking we should become weaker and the labor o years be lost or long delayed being brought to maturity. I think I often stated that there are evidently many reasons for proceedin with the work after so much has been done, which there would n be for commencing with it anew. There is no reason to suppose that the publication would involve a pecuniary loss in the end, as th work would no doubt sell after a time, at some profit, but it would require a considerable outlay in the beginning.

Another subject or two of importance might be mentioned if the Board had the means and were disposed to enlar the Mission, as much as circumstances seem to us to require, or to plac even the present foundations on a firmer basis. I forwarded a mo since a proposal for creating a Church & High School at Chintadripetta The circumstances of the Presidency have prevented us as was then in

ted

intimated they probably would from bringing the Plan immediately before the public as we first intended but we wish to keep it in view. All that we hope to need from the Committee is the means of purchasing the land or at most of a little additional for building the School. We think there can be no doubt of our being able to raise subscriptions for a Church such as we need without much difficulty.

Another thing which we desire to do when the funds of the Board may admit — and that for the purpose of avoiding the charge for rent which makes a heavy draft on our funds — purchase the house at Royapooram near the Church, and which has been occupied by one of our Families nearly the whole time since the commencement of the Mission. The Price Rs 5,000 — and were it not for occasional ~~repa~~ alterations assessment ground rent &c — to be deducted, the rent which is Rs 55 Monthly would soon pay for the House. As it is, with many drawbacks it is no doubt true economy for the Board to purchase such a house rather than to rent it for any length of time.—

I enclose a letter to the Rev. C. F. Heyer in which is a Bill of Exchange on yourself for the balance due him on his leaving Madras. It is the Third of the Bill which is enclosed. That & the Second, which I forwarded to him at Calcutta, have an endorsement for the equivalent of a Bill which I gave him on Calcutta and which should the Bill have been paid in Calcutta is to be deducted from the $1885.12 for which the Bill on you is given. It was not entered on the First of the Bill of Exchange which please to notice as it did not occur to me at the time of sending it to Mr Heyer

I add a list of the Contributions made by us the last two years which have been applied to liquidate the debt on the Church — to build School Rooms at Royapooram &c —. There was at the beginning of this year Rs 132-5-0 still due on their debt. I remain

Madras, Apl. 14. 1846.

My dear Mr. Hill,

I had the pleasure of receiving by the last verland" your favor containing notice of a letter of credit of Jan. 29, for £1,500. The brethren arriving by the Malabar inform me that they wish to receive the remainder of their allowance for outfit here, & expected that advice would have been sent me of the amount to each. I do not recollect receiving any such directions, but have paid the following sums according to their ap.

Rev. J. Herrick,	equivalent	of $200	—	Rs. 426. 10. 8
" E. Webb,	"	" 125	—	266. 10. 8
" J. Howland,	"	" 85	—	181. 5. 4
" J. Rendall,	"	" 110	—	234. 10.

Mr. Rendall was not certain as to the exact sum due him, but said it was at least $110. It can be made right, if necessary, with the Madura mission.

I have drawn on the Agents in London —

No. 311	March	9.	E. F. Shaw Esq.	— £30.
312	"	13.	Rev. M. Bowie	— 300.
313	"	21.	Lt. Col. H. Mobrely	— 100.
314	Apl.	9.	Rev. M. Bowie	— 200.
315	"	14.	Miss Fanny Morgan	— 50.

It has been of late very difficult to negotiate bills, & the rate is more unfavorable than it was last year by 6 pr ct. at least. I have consequently not sold any amount for the last two months, & our funds are rather low. There remain to be drawn on letter of Credit of Sep. 30, 1845, — 125.

"	"	Nov. 26. "	— 400.
"	"	Jan. 29. 1846,	— 1,500.

But we must soon draw for a few hundred Pounds.

Please thank dear Mrs. Hill for her good letter to my wife, which I ventured to open. My sincerest regards to he yourself. (Sd.) M. Winslow.

My dear Mr. Hill,

Since my last I have negotiated & passed the following Bills—

No. 316—	April 15. 1846.	Rev. J. Roberts	40-0-0
317—	〃 〃 〃	William Scott Esq.	150-0-0
318—	〃 20 〃	Rev. M. T. Male	18-0-0

320—	〃 〃 〃	Major H. Smith	100-0-0
321—	〃 〃 〃	William Scott Esq.	150-0-0

which complete all the Letters of Credit of 1845 and take off that for Jany 29. 1846— £33— The remainder of that letter is of course all we have to draw upon and we are very low in funds at command because Bills are not negotiable on favorable terms.

The Bills given the Rev. Mr. Day were drawn on a Letter of Credit, and accounted for accordingly; but I did not enter them in the Mission Account. The Debit and the Credit of yours will make all even

I hope that my dear Wife will reach Ame soon after this. In a previous letter I requested you to pay her what she may need for her expenses while at home and charge it to account of this Mission. What is drawn for her children will more properly I suppose be charged to the Madura Mission

I send by this mail an Order in favor of my daughter Joanna for $100. which when she may need you will much oblige me by kindly paying on my Account charging it to the Mission and I will settle it here.

My dear Mr. Hill,

I enclose a letter for Dr. Anderson — one for my dear Wife — one for Dr. Scudder and a Note for Mr. Hutchings. Since my last I have drawn the following Bills.

No. 322	May 25. 1846 —	Mr. J. C. Moulton —	70-12-0

329	" " "	Messrs. Dunhill & Co.	230-0-0
			£ 982-13-4

These were all drawn on Letter of Jany 29. 1846 — and £33 — previously — on. There remain to be drawn on that £484-14-9 and I have the letter for March for £ 1500 —

It is now almost impossible to negociate Bills or I should have drawn for the greater part of both of these letters as we are pressed for money especially from Madeira. They arrange to expend much more now in building &c the early part of the year than the latter & that they have already had more than 25,000 this year. As the number of families is now increased probably £1500 once in two Months will be insufficient and it will be very awkward to be in arrears. Indeed the state of the money market is now such that borrowing is almost out of the question. Should the Notice of any letter fail we shall also be embarrassed if close upon the heels of our credit — The money due by you for the Rev. C. F. Heyer can be paid here there as he has returned to Am— The amount of $500 — p into your Treasury

This Month it happens that the Letter for March is completed because just the balance of it was wanted while a small am^t remains to be drawn on the Letter for Jan^y — Since my last I have drawn —:

My dear Mr. Hill,

Since my last I have passed the following Bills on Letter of May 30. 1846.

No. 336.	Aug. 1. 1846	Messrs. Dunhill & Co.	300-0-0
337.	" 10. "	S. D. Birch Esq.	400-0-0
338.	" " "	Ibid.	200-0-0
339.	" 11. "	Revd. M. Bowie	300-0-0

These leave on that letter which was received by the last mail, £300. only to be drawn. There is still the small balance on the former letter for Jan. 29 — of £84-6-8 — which is all we have in hand.

The exchange is now down to two shillings the Rupee —; and, so far as appears, likely to remain about that at present. This makes a difference of Rs. 666-10-4 in every £1000 — from the average of the last two years. We are also just now troubled to get remittances to Madura. Our usual and almost invariable course has been to get drafts on the Collectors office (Cutcherry) from the Office of the Accountant General at Madras. About a year ago this began to be interrupted because it was said there was not money in the Collectors office. I waited upon the Accountant General, and on stating the case obtained a promise that he would endeavor, month by month, to have reserved about 4000 Rupees for us, for which we might have drafts. But this arrangement is now again interrupted, and I have been obliged this month to send 4000 in Bank Notes, which is troublesome attended with some risque & not convenient to the Madura —

Thanks to your dear wife for her letters to Mrs. W. — whom I hope she will have the pleasure of seeing. My dear love to Mrs. Fell & other friends.

Mission because it is generally difficult to pass Bank Notes there.

I think we must again mention the desirableness of having a new Agent in London. The purchases made for the Press are not, as we think, made as low by several pr Ct generally as they ought to be. Our paper, which is a heavy invoice, costs us more than we can frequently buy it for in the bazaar, and we do not feel quite satisfied to have the account of the goods sent us settled & the goods paid for, whether right or wrong, without opportunity of correcting any mistakes there may be. The Agent should send us at least an Acct Current, though all be paid in Boston, that we may see the items whether of goods, and whether of Postage, Commissions, or whatever other charges there may be. I have before mentioned his charging Commissions on what has come through his hands from Boston &c. Of course charges for receiving & forwarding are proper and necessary, but not we think commissions on the value when there is no risque.

You once mentioned that we might make a trial by sending an order to some other Agent. We have thought of ordering a quantity of Paper from the Agent of one of the Presses here; but in that case we must send the money with the order. Could some of the Merchant friends of the Board arrange with a correspondent whom they know to be a suitable person (or some firm) and your Committee appoint the Agency for all your Indian Missions, a great

point not add, we think, be gained.— I remain Yrs Affect. M. Winslow

My dear Mr. Hill,

I had the pleasure of receiving intimation by the last Steamer of your having obtained a Letter of Credit for £3000 — July 30 —.

I have drawn this day in favor of Messrs Griffiths & Co. for £1500.
and Mr Jno. Cox, London, — 125.
Leaving in my hands £1375 — the previous Letters having been exhausted before as mentioned in my last —

Of these Bills that in favor of Mr. Cox is for Paper for the Tamil & English Dictionary. Of the remittance last sent Dr. A. informed us that $1000 were to be appropriated to the Dictionary. We found on examining the paper remaining of the Royal Octavo previously imported for the purpose that it has become too yellow and is really unfit except for a portion of second rate copies, and that we must get the paper before we can begin — Of course a part of the $1000 is taken for that purpose —

Mr. Hunt wished me to add to his Indent of "A good "Nova Scotia" if there be no better Grind Stone (26 or 28 inches) for the Bindery — hung on a good principle, with all the necessary apparatus — Mr Goldsmith, 30 inches he says had one hung on a good principle i.e. on wheels. He has not been able to succeed in hanging one properly to grind "true" — If
